AgroHands

User Guide

Verified hands. Fair work.

How to use the AgroHands website, Android app and USSD service, step by step, with a picture of every screen.

For farm workers, farm owners, field agents and administrators.

Version 1.4 · October 2026
Applies to AgroHands app version 1.4.0 and later

How to use this guide

This guide explains every part of AgroHands. You do not need to read it from start to finish. Go straight to the chapter for your role:

If you are...	Read these chapters
A **farm worker** looking for paid farm work	2 Getting started · 3 Your worker page · 4 Training · 5 Job offers and contracts · 7 USSD (no smartphone) · 8 Your account
A **farm owner** who needs workers	2 Getting started · 6 Hiring workers · 8 Your account
An AgroHands **field agent**	All of the above (you will help both groups), then 9 The agent desk
An AgroHands **administrator**	9 The agent desk · 10 The admin console · Appendices

How the guide is written. Steps you carry out are numbered. Words in **bold** are the exact words you will see on a button or screen. Each picture shows the real app; the people, farms and phone numbers in the pictures are demonstration data, not real people.

About the pictures. The pictures were taken on a phone screen, because most people use AgroHands on a phone. On a computer the same pages are wider, but the buttons and words are the same. Long pages are shown in parts side by side: read **Part 1**, then **Part 2**, and so on, as if you were scrolling down.

> **Your language**
>
> AgroHands works in English, Nigerian Pidgin, Yorùbá, Hausa, Igbo and French. This guide shows the English screens. If you use another language, the buttons are in the same places with the same icons.

1. About AgroHands

AgroHands connects farm owners in Nigeria with farm workers whose identity has been checked. Every hire comes with a written contract that both sides sign on their phone, so pay, hours and rest days are agreed in writing before work starts.

1.1 What AgroHands does for you

For farm workers	For farm owners
Find paid farm work near you, matched to your skills	Find workers near your farm, ranked by skill, distance, reliability and rating
Never pay to get a job. AgroHands is free for workers	Only see workers whose identity has been checked
A written contract in your language before you start	A written contract that covers what the Labour Act requires
Free training and certificates that raise your level and your pay	Workers trained in farm safety, chemicals and good practices
A way to report unpaid wages or unsafe work	A way to report no-shows, theft or bad conduct

1.2 Who uses AgroHands

Role	What they do
Worker	Creates a profile, gets verified, takes training, receives job offers, signs contracts, rates farms.
Farm owner	Adds the farm, posts jobs, sends offers to the best-matched workers, signs contracts, rates workers.
Field agent	AgroHands staff in the field. Registers workers who have no smartphone, checks NIN slips, calls guarantors, confirms addresses and farms, tests skills.
Administrator	AgroHands head office. Manages users, verifies farms, moderates jobs, resolves disputes, watches SMS and payments, exports reports.

1.3 Three ways to use AgroHands

Way	What you need	Best for
Website	Any phone or computer with internet and a browser (Chrome, Opera Mini, Safari…)	Everyone

Way	What you need	Best for
Android app	An Android phone (version 7 or newer) and the AgroHands app from Google Play	People who use AgroHands often
USSD	Any mobile phone, even a basic one with buttons. No internet, no data	Workers without a smartphone (chapter 7)

Your account is the same everywhere. A worker who registers by USSD can later log in on the website with the same phone number and PIN.

1.4 Your phone number and PIN

You log in with your **phone number** and a **PIN** of 4 to 6 digits that you choose. Your PIN is also your **signature** on contracts, so treat it like a bank PIN:

- Never tell anyone your PIN, not even AgroHands staff. Staff will never ask for it.
- If you type a wrong PIN 5 times, your account is locked for 15 minutes to stop guessing.
- If you forget your PIN, you can choose a new one with a code sent to your phone (section 2.6).

2. Getting started

2.1 Opening AgroHands

Open the AgroHands website in your phone's browser, or open the AgroHands app. The first page explains what AgroHands does and offers two buttons: **I want farm work** (for workers) and **I need farm workers** (for farm owners).

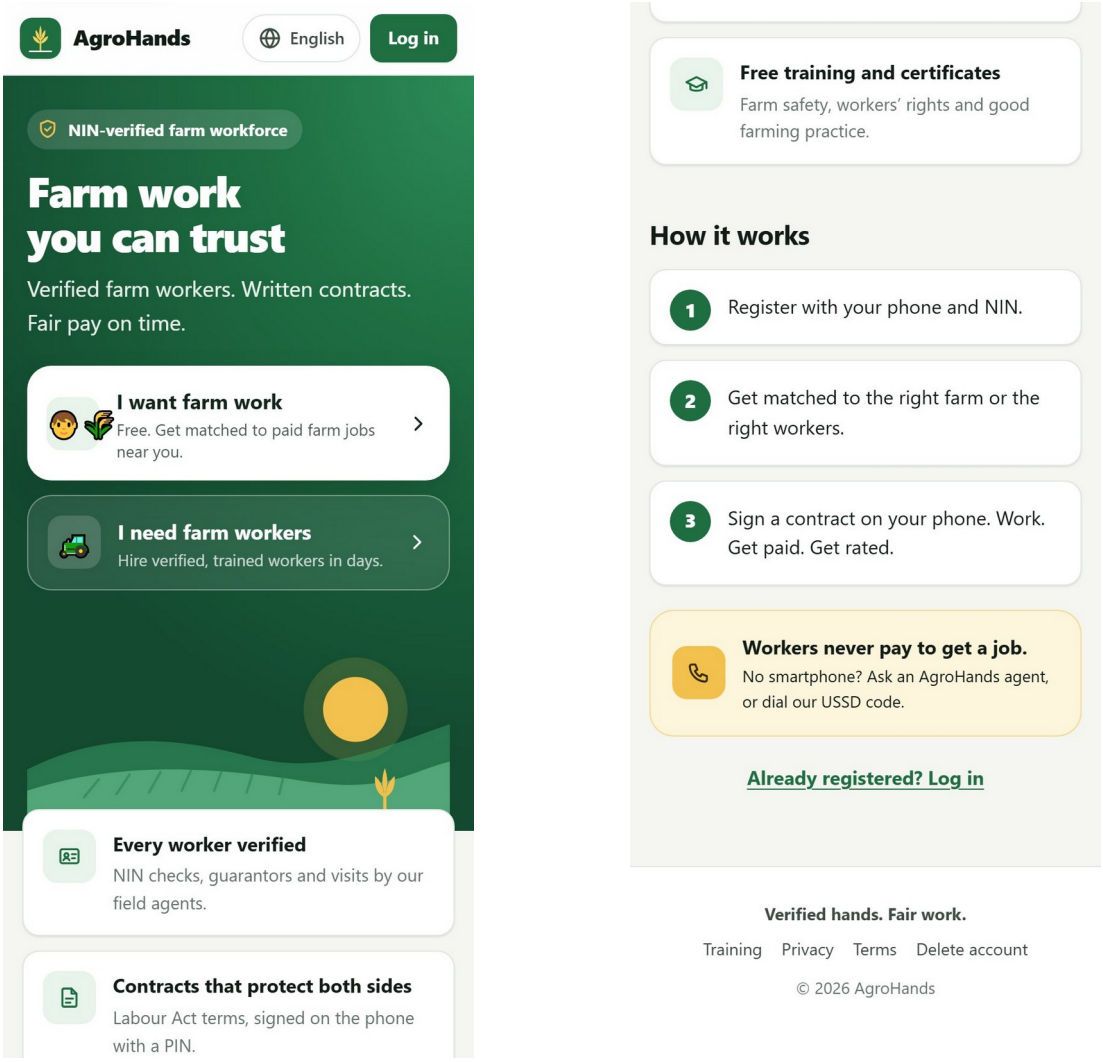

Figure 1. *The home page on a phone: choose "I want farm work" or "I need farm workers". If you already have an account, tap "Already registered? Log in" near the bottom.*

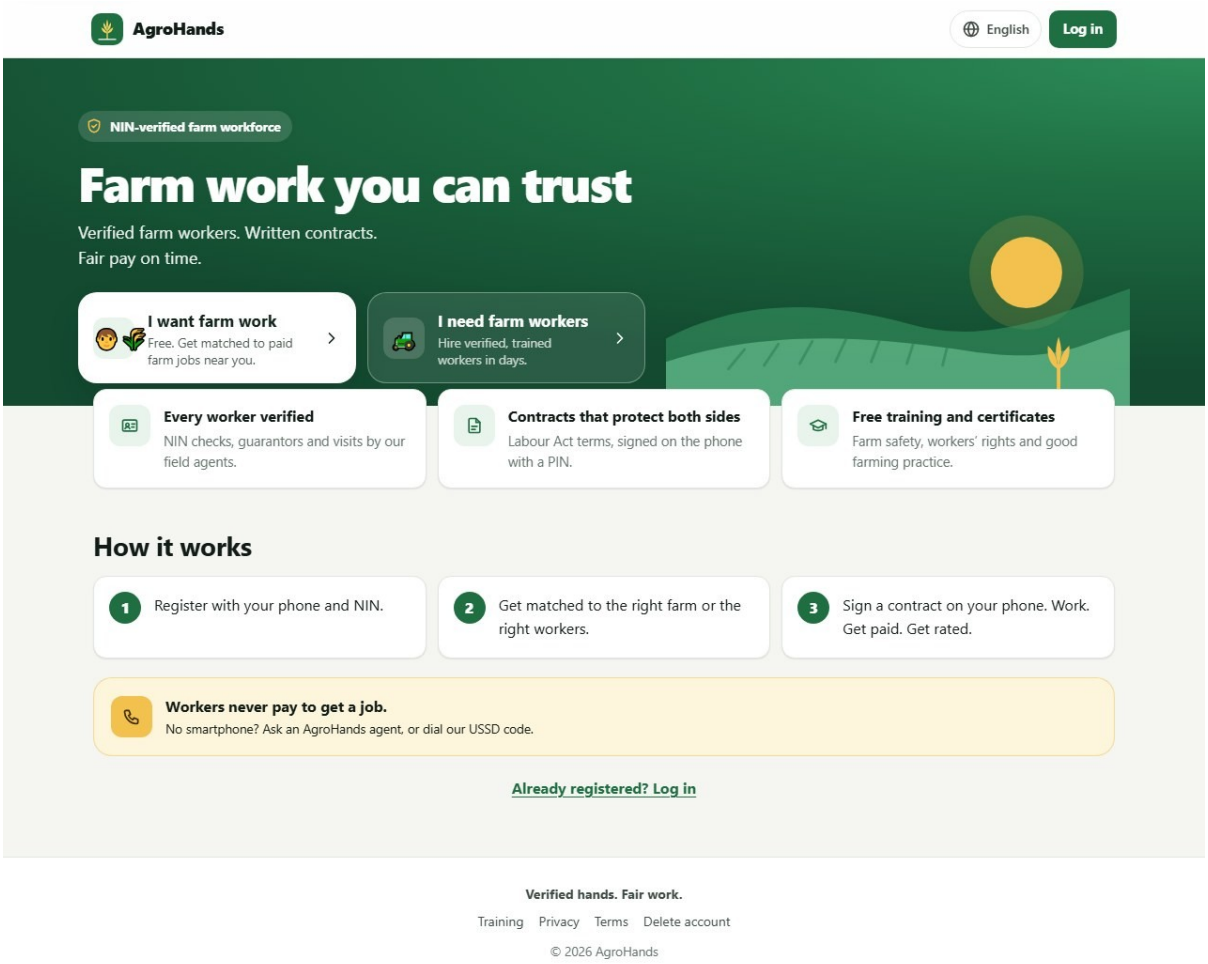

Figure 2. *The same home page on a computer.*

2.2 Choosing your language

1. Tap the **globe** button at the top of the screen (it shows the current language, for example **English**).
2. Tap your language: **English**, **Pidgin**, **Yorùbá**, **Hausa**, **Igbo** or **Français**.
3. The page reloads in your language. AgroHands remembers your choice on this phone and in your account.

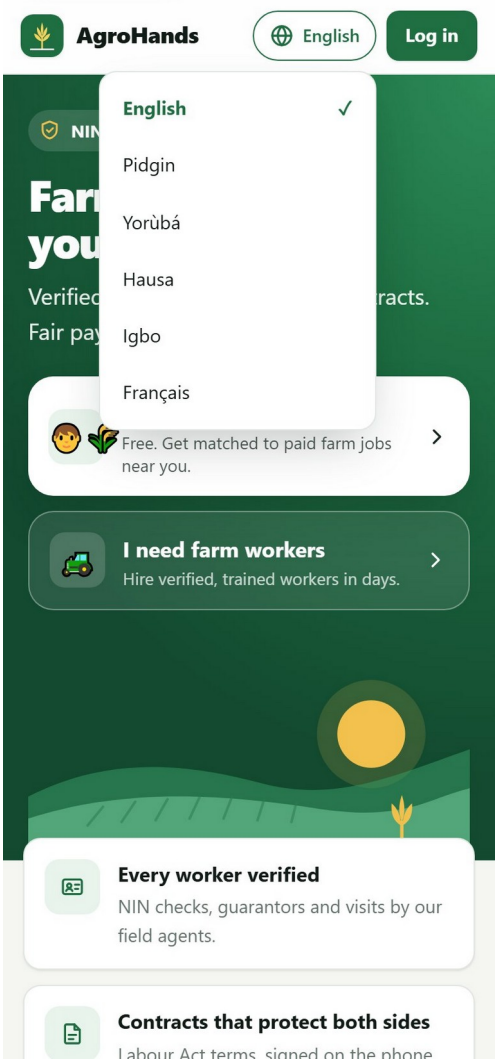

Figure 3. *The language menu. A tick shows the language in use.*

2.3 Creating an account

You need a phone number that receives SMS. One phone number can have only one AgroHands account.

1. On the home page tap **I want farm work** (worker) or **I need farm workers** (farm owner). You can switch between **Worker** and **Farm owner** at the top of the form.
2. Type your **Full name** exactly as it appears on your NIN slip or ID card.
3. Type your **Phone number**, for example 0803 123 4567.
4. Choose a **PIN** of 4 to 6 digits and type it again in **Type the PIN again**.
5. Read the Terms and Privacy Notice (tap the links), then tick the box to agree.
6. Tap **Create account**. AgroHands sends a 6-digit code to your phone by SMS.

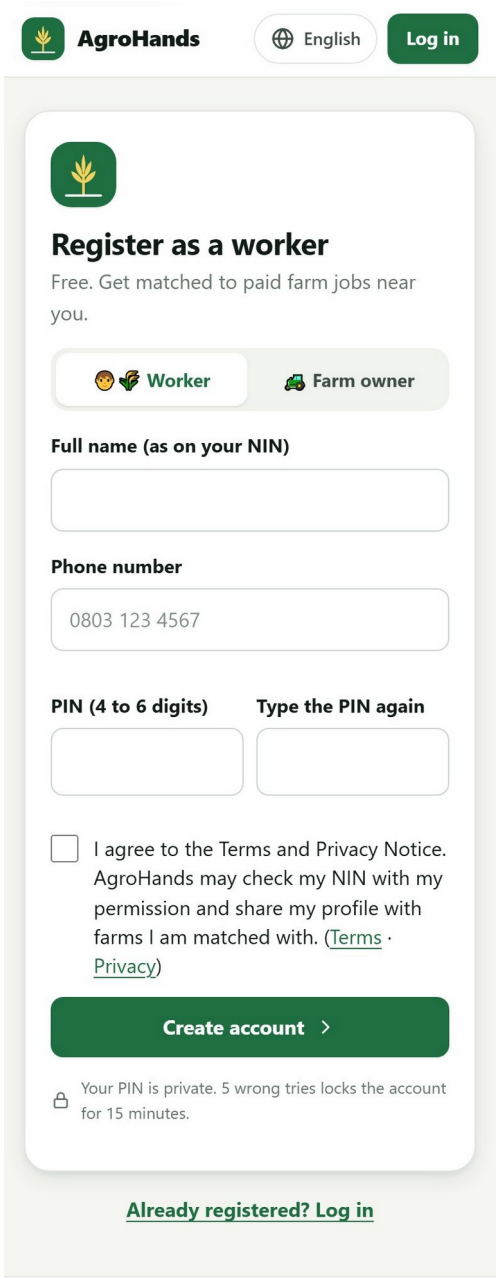

Figure 4. *Registering as a worker.*

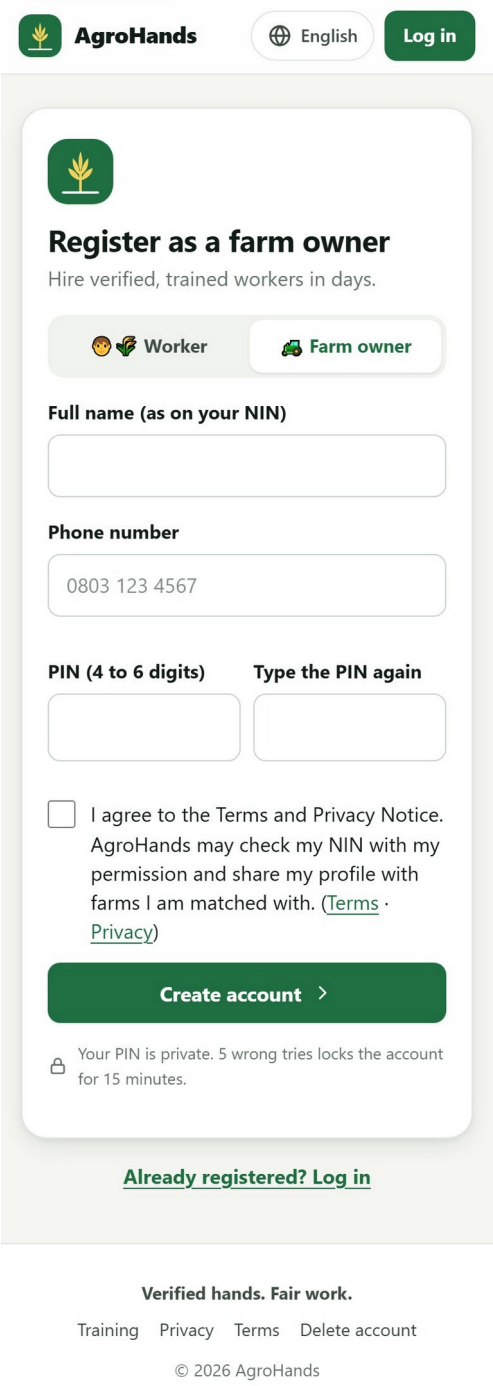

Figure 5. *Registering as a farm owner. The form is the same; the switch at the top decides the account type.*

2.4 Confirming your phone number

AgroHands creates your account only after you prove the phone is yours. This protects you: nobody can open an account or sign a contract with your number.

1. Wait for the SMS from AgroHands. It contains a 6-digit code, for example *AgroHands code: 482193*.
2. Type the code in **Code from the SMS**. On many phones the code fills in by itself.
3. Tap **Confirm**. Your account is created and you are logged in.

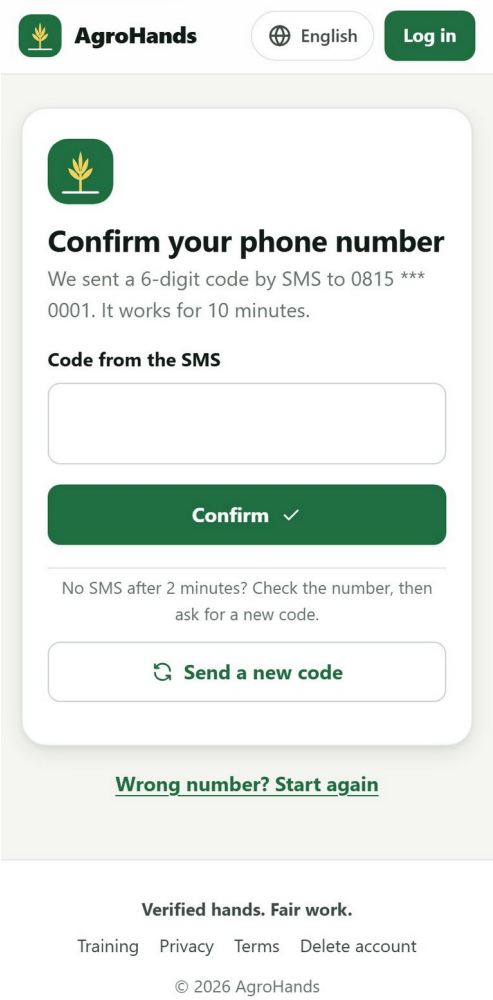

Figure 6. *Enter the code from the SMS. The screen shows the last digits of the number the code was sent to.*

> **If the SMS does not arrive**
>
> Wait two minutes. Check that the number shown on the screen is yours.
>
> Tap **Send a new code**. You can ask for a new code once a minute, and up to 5 codes an hour.
>
> Wrong number? Tap **Wrong number? Start again**.
>
> A code works for 10 minutes and only once. After 5 wrong tries you must ask for a new code.

> **Never share your code**
>
> AgroHands staff will never ask you for the code in the SMS. Anyone who asks for it is trying to take over your account.

2.5 Logging in

1. Tap **Log in** at the top of any page.
2. Type your **Phone number** and your **PIN**.

3. Tap **Log in**. You arrive on your own page: **My page**.

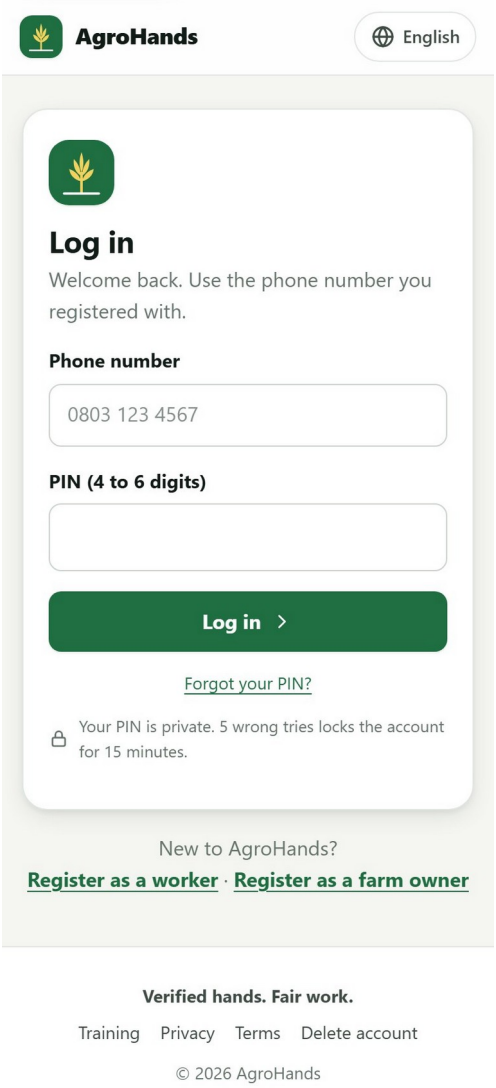

Figure 7. *The login page. "Forgot your PIN?" is just below the Log in button.*

You stay logged in on this phone for 30 days unless you log out. On a shared phone, always log out when you finish (section 2.7).

2.6 Forgot your PIN

1. On the login page tap **Forgot your PIN?**
2. Type your phone number and tap **Send code**.
3. Type the 6-digit code from the SMS, then your **New PIN** twice.
4. Tap **Confirm**. Your PIN is changed and you are logged in.

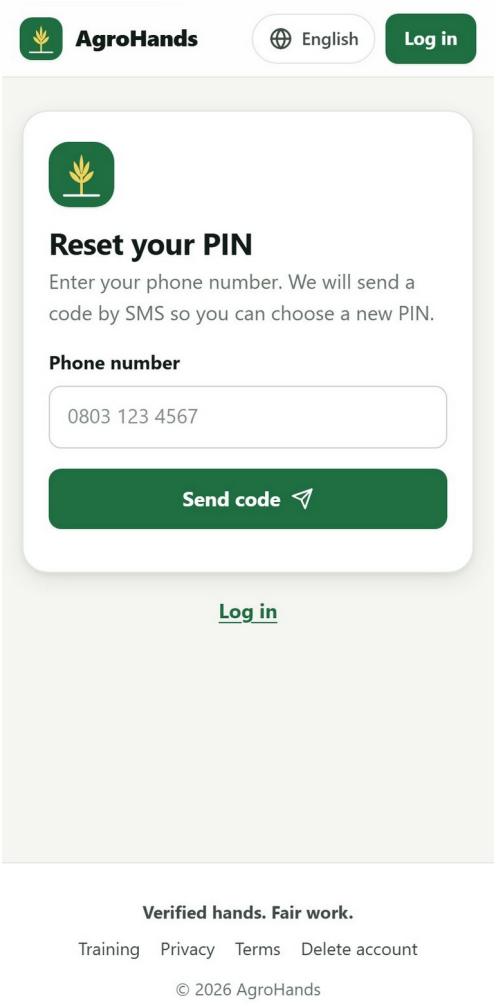

Figure 8. *Step 1: enter your phone number to receive a reset code.*

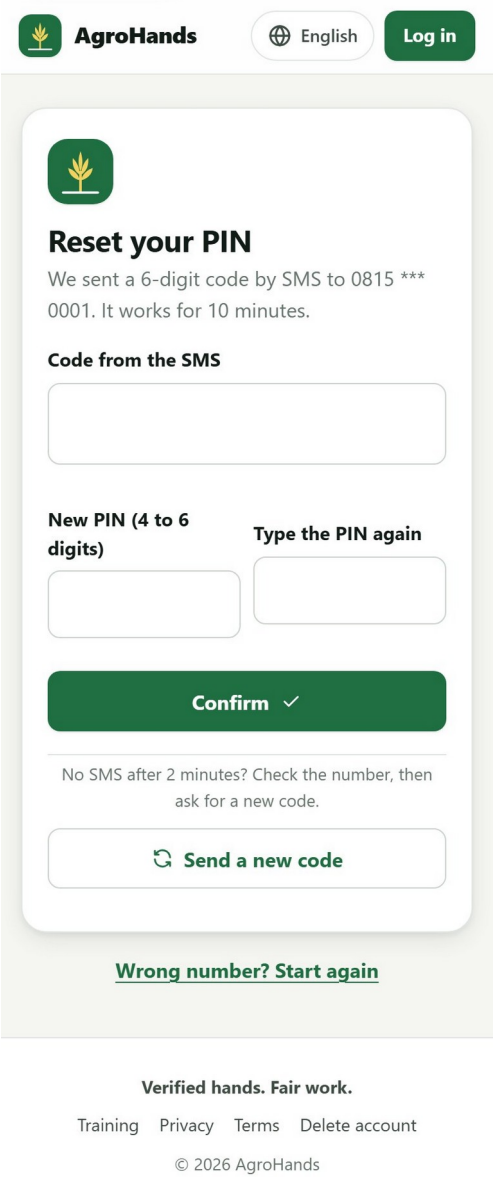

Figure 9. *Step 2: enter the code and choose a new PIN.*

> **Good to know**
>
> For your safety, a PIN reset logs your account out on every other phone or computer.
>
> A reset also unlocks an account that was locked after 5 wrong PINs.
>
> If the number has no account, the screen looks the same but no SMS is sent. This stops strangers from finding out who uses AgroHands.

2.7 Finding your way around

Once you are logged in, every page has the same frame:

- **Bottom bar** (on phones): the main sections for your role. For workers: **My page**, **Training**, **Verify** and **Profile**. For farm owners: **My page**, **Post job**, **Training** and **My farm**.

- **Globe button** (top): change language.
- **Your initials** (top right): your account menu, with **My page**, your profile, **Change PIN**, **Download my data**, **Delete my account** and **Log out**.

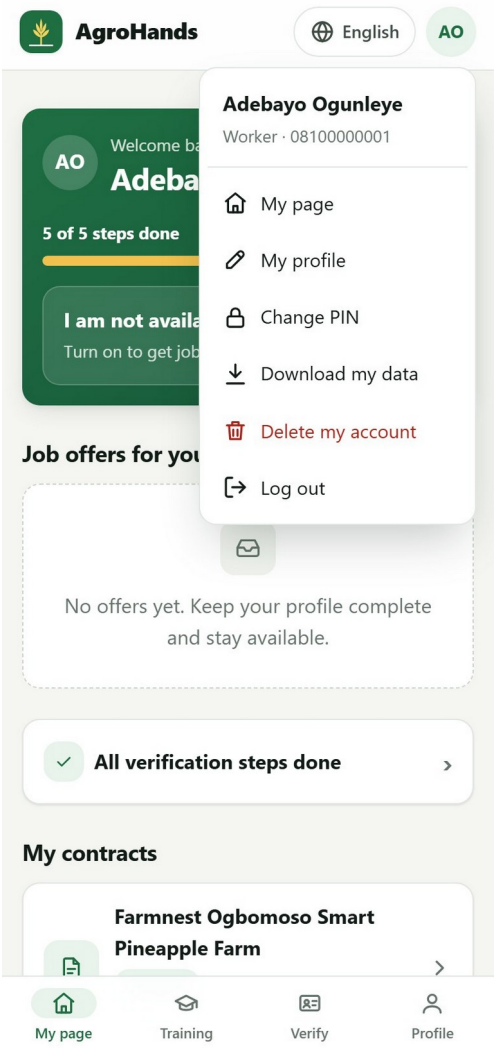

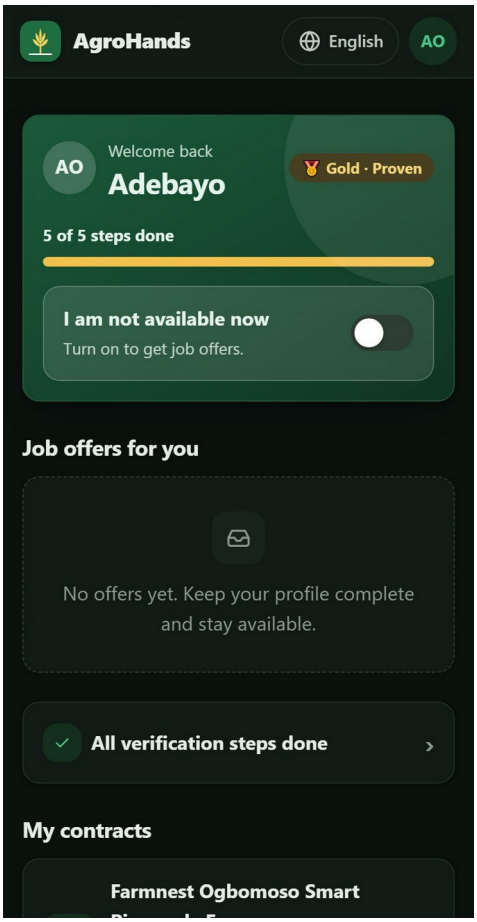

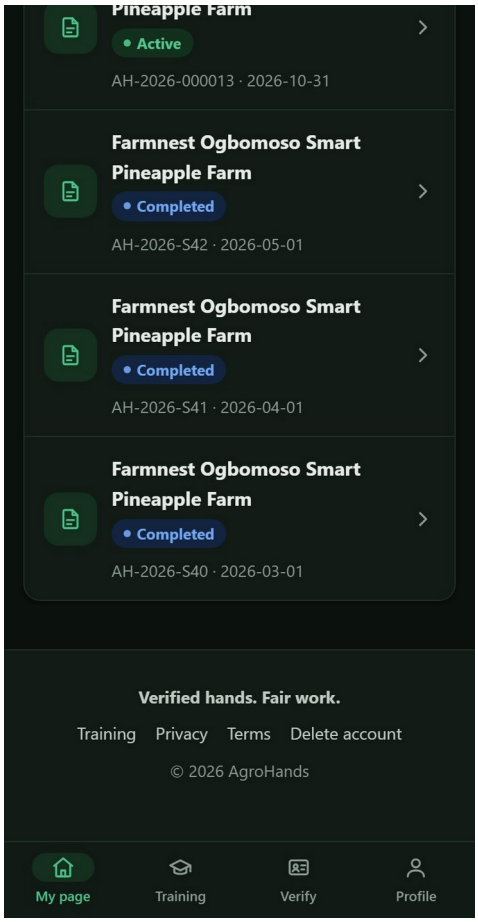

Figure 10. *The account menu opens when you tap your initials at the top right.*

AgroHands follows your phone's light or dark setting automatically. Dark mode saves battery on many phones.

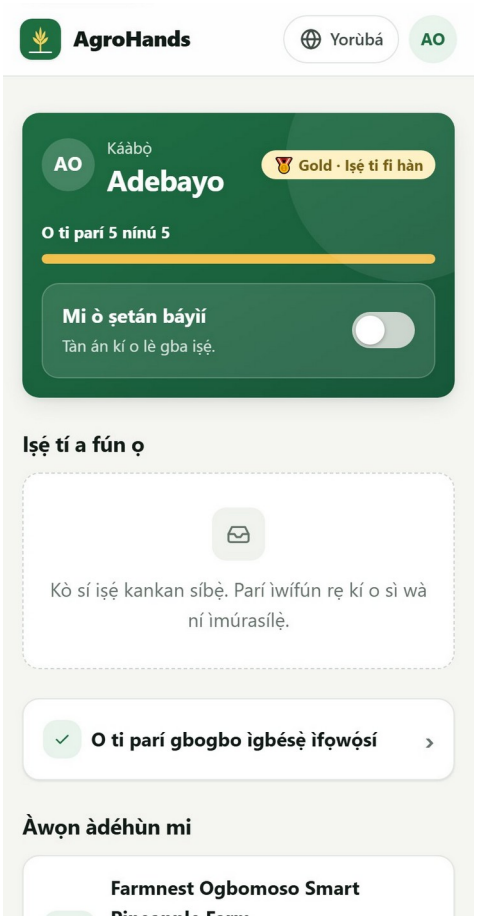

Part 1 of 2

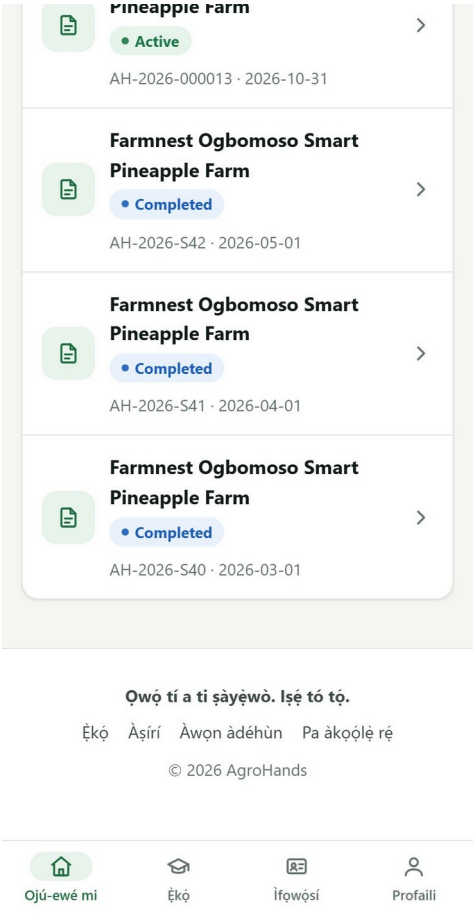

Part 2 of 2

Figure 11. *A worker's page in dark mode.*

Part 1 of 2

Part 2 of 2

Figure 12. *The same page in Yorùbá. Every screen in this guide exists in all six languages.*

2.8 Installing AgroHands on your phone

Android: from Google Play

1. Open **Google Play**.
2. Search for **AgroHands** and tap **Install**.
3. Open the app and log in with your phone number and PIN.

Any smartphone: add to home screen

1. Open the AgroHands website in Chrome (Android) or Safari (iPhone).
2. Android: tap the menu (three dots) and choose **Install app** or **Add to Home screen**. iPhone: tap **Share** and then **Add to Home Screen**.
3. An AgroHands icon appears on your home screen. Training pages you have opened before also work without internet.

3. Your worker page

After you register as a worker you arrive on **My page**. It shows how far you are with verification, any job offers, and your contracts.

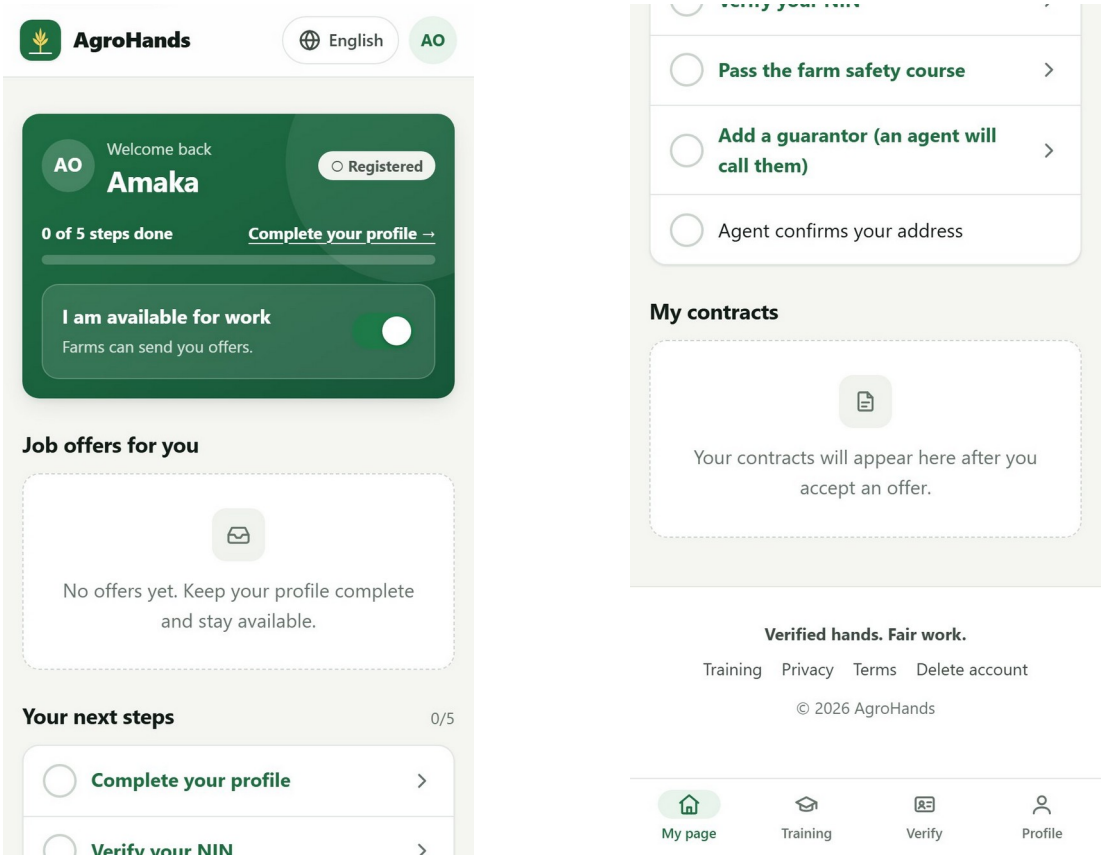

Figure 13. *A new worker's page. The green card shows progress ("0 of 5 steps done") and the availability switch; "Your next steps" lists what to do.*

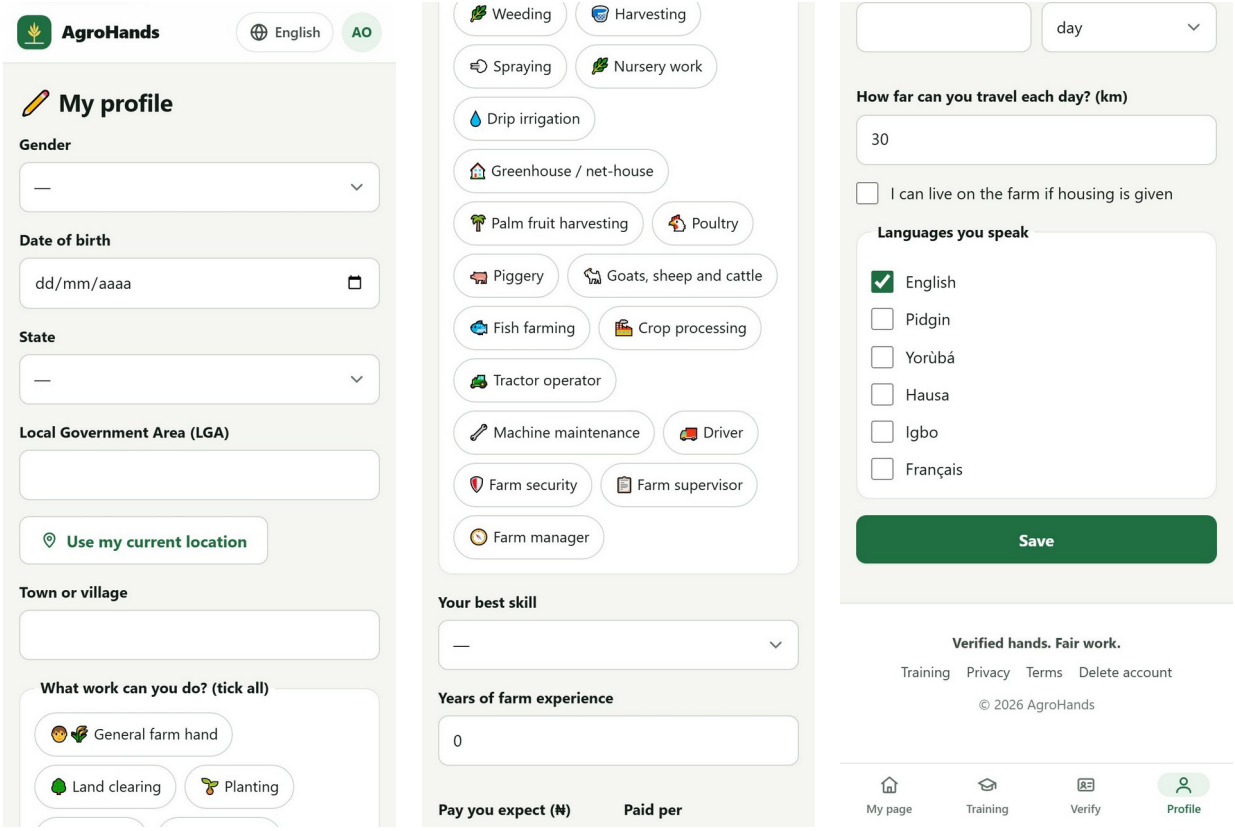

3.1 The five steps to get hired

Farms only hire workers they can trust. Each step you complete makes you visible to more farms and raises your level. Tap a step to do it.

Step	What you do	Where
1. Complete your profile	Tell farms about your skills, location and wage	Section 3.2
2. Verify your NIN	Prove your identity with your National Identification Number	Section 3.3
3. Pass the farm safety course	A short free course and quiz	Chapter 4
4. Add a guarantor	Someone who knows you and will vouch for you	Section 3.4
5. Agent confirms your address	A field agent checks where you live	Done by an agent

3.2 Completing your profile

1. Tap **Complete your profile** (or **Profile** in the bottom bar).
2. Fill in each field (see the table below).
3. Tap **Save** at the bottom.

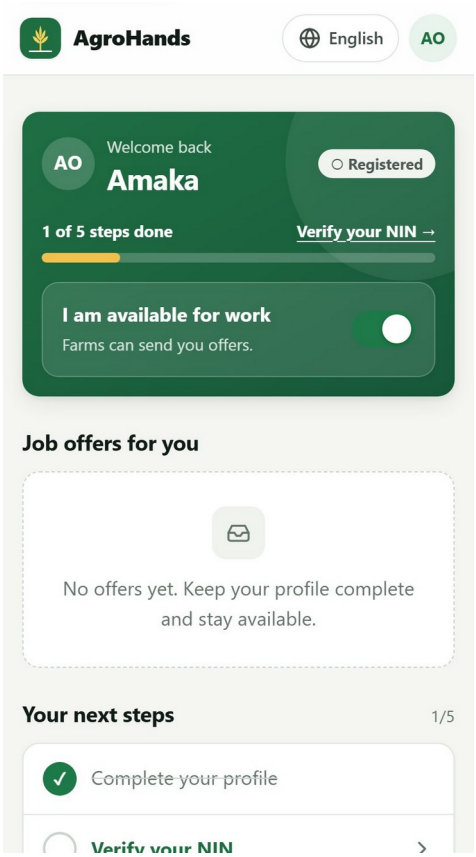

Part 1 of 3 Part 2 of 3 Part 3 of 3

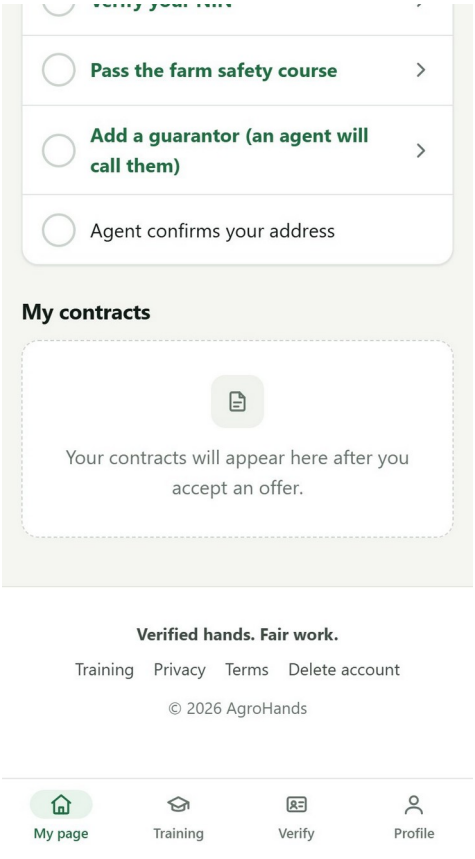

Figure 14. *The worker profile form (shown in three parts).*

Field	What to enter
Gender, Date of birth	You must be 18 or older to be offered farm work.
State, Local Government Area (LGA), Town or village	Where you live. Farms see your distance from them, not your address.
Use my current location	Optional. Tap it while at home so distance is measured exactly. AgroHands reads your location once, only when you tap.
What work can you do? (tick all)	Every type of farm work you can do, for example Harvesting, Weeding, Spraying, Poultry.
Your best skill	The one you are best at. It counts most in matching.
Years of farm experience	Your total years doing farm work.

Field	What to enter
Pay you expect (₦) and Paid per	The wage you want, per **day** or per **month**. Ask fairly: offers well below your figure are not sent to you, and very high asks match fewer jobs.
How far can you travel each day? (km)	Jobs further away are not offered, unless the farm gives housing and you tick the next box.
I can live on the farm if housing is given	Tick to also receive offers from farms further away that provide housing.

Part 1 of 2

Part 2 of 2

Figure 15. *After saving the profile: "1 of 5 steps done", and the next step is "Verify your NIN".*

3.3 Verifying your NIN

Your National Identification Number (NIN) proves you are who you say you are. AgroHands checks it with your permission and does **not** keep your full NIN: it stores only a protected code and the last 4 digits.

1. Tap **Verify your NIN** (or **Verify** in the bottom bar).
2. Type your 11-digit NIN.
3. Tick **I give AgroHands permission to verify my NIN now.**
4. Tap **Verify now**.

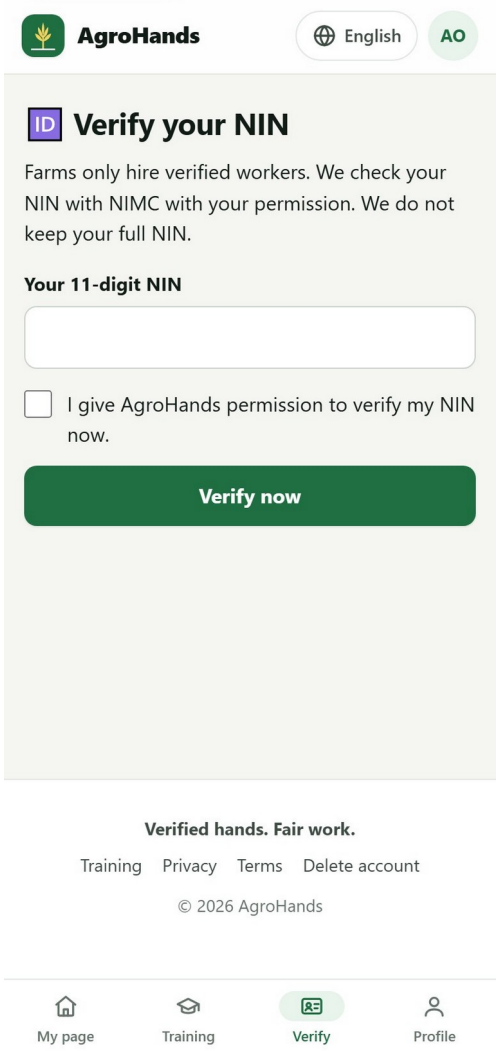

Figure 16. *Entering your NIN.*

Depending on how AgroHands is set up in your area, one of two things happens:

- **Instant check:** the NIN is checked straight away and the step turns green.
- **Agent check:** you see *Received. An AgroHands agent will confirm your NIN slip with you.* Show your NIN slip or ID card to an AgroHands field agent, who confirms it.

> **Common problems**
>
> *A NIN has exactly 11 digits* means a digit is missing or extra.
>
> *This NIN is already linked to another account* means the NIN was used before. Each person can have only one account. See an agent.
>
> *The name on this NIN does not match your account name* means your name was typed differently. See an agent to correct it.

3.4 Adding a guarantor

A guarantor is a respected person who knows you well, for example a pastor, imam, community leader, relative or former employer, and who will vouch for you. A field agent calls them to confirm.

1. Tap **Add a guarantor**.
2. Enter their **full name**, **phone number** and **how they know you**.
3. Tap **Save**. Tell your guarantor to expect a call from AgroHands.

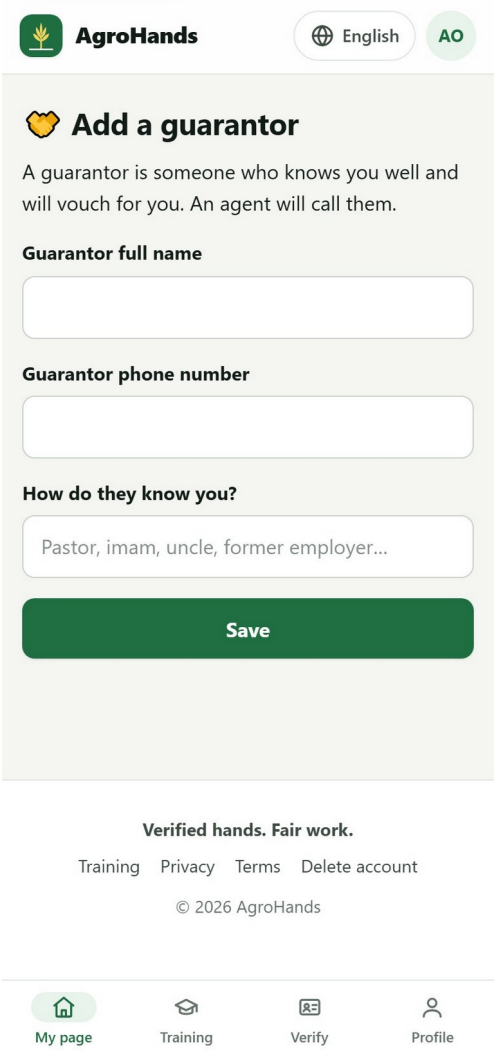

Figure 17. *Adding a guarantor.*

3.5 Your level (tier)

Your level is shown as a badge on your page and to farms. Higher levels are shown first and qualify for better-paid jobs. AgroHands updates your level automatically.

Level	Badge	What you need
Registered	Registered	An account and a profile.
Bronze	Bronze · ID verified	NIN verified **and** the farm safety course passed.
Silver	Silver · Vouched	Bronze, plus guarantor confirmed **and** address confirmed by an agent.

Level	Badge	What you need
Gold	Gold · Proven	Silver, plus a practical skill test passed with an agent, **and** at least 3 completed jobs with an average farm rating of 4.5 stars or more.

3.6 Available for work

The switch **I am available for work** in the green card controls whether farms can send you offers. Turn it off when you are busy or travelling. When you start a job, AgroHands turns it off for you, and turns it back on when the contract ends.

4. The Training Academy

The AgroHands Training Academy has short courses in plain language. Each course has a few lessons and a quiz. Pass the quiz (75% or more) to earn a certificate that farms can check. Training is open to everyone: you can read lessons without an account, but you need to log in to take a quiz.

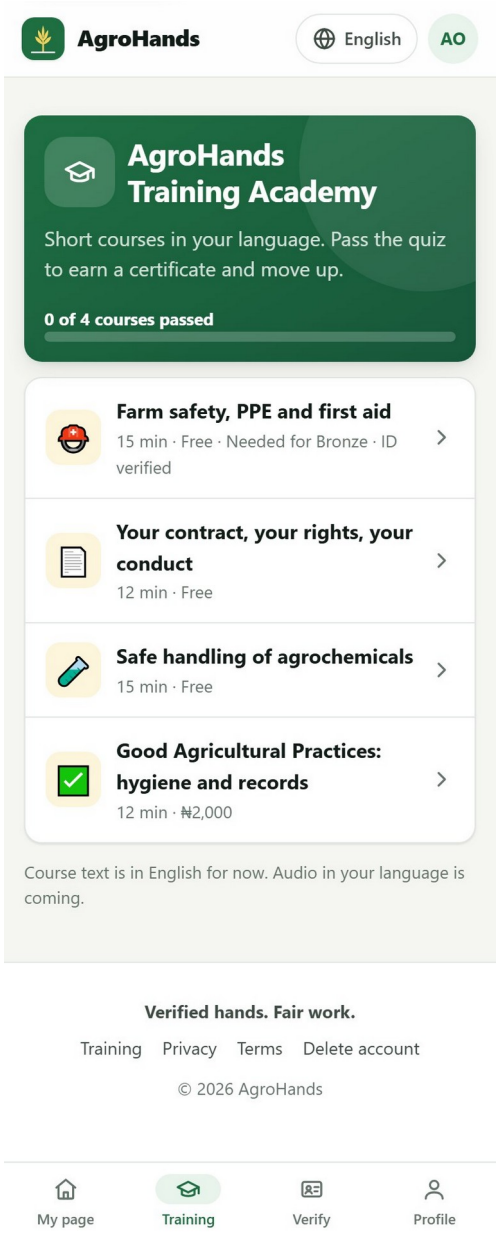

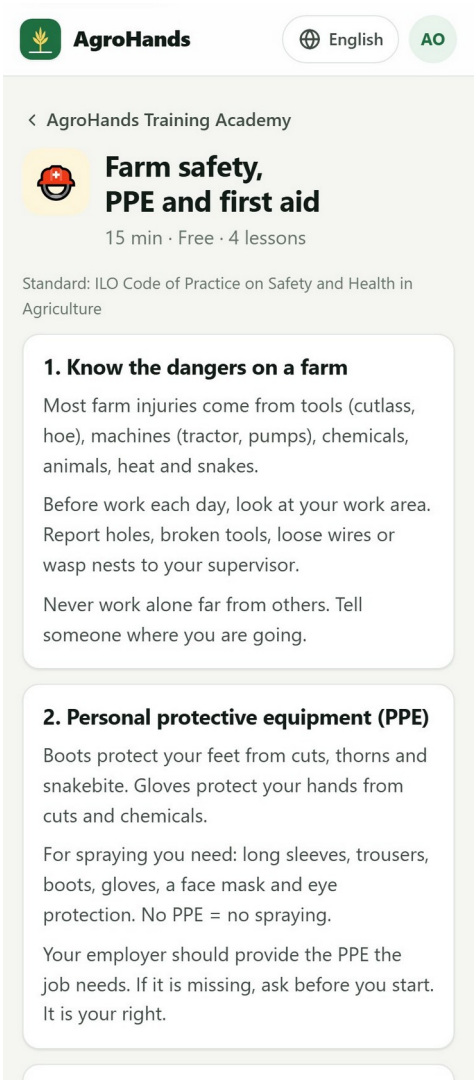

Figure 18. *The Training Academy. Each course shows its length, price ("Free" for most) and whether it is needed for a level.*

Course	For	Time	Price	Why take it
Farm safety, PPE and first aid	Workers	15 min	Free	**Required for Bronze.** Dangers on a farm, protective equipment, heat, first aid.

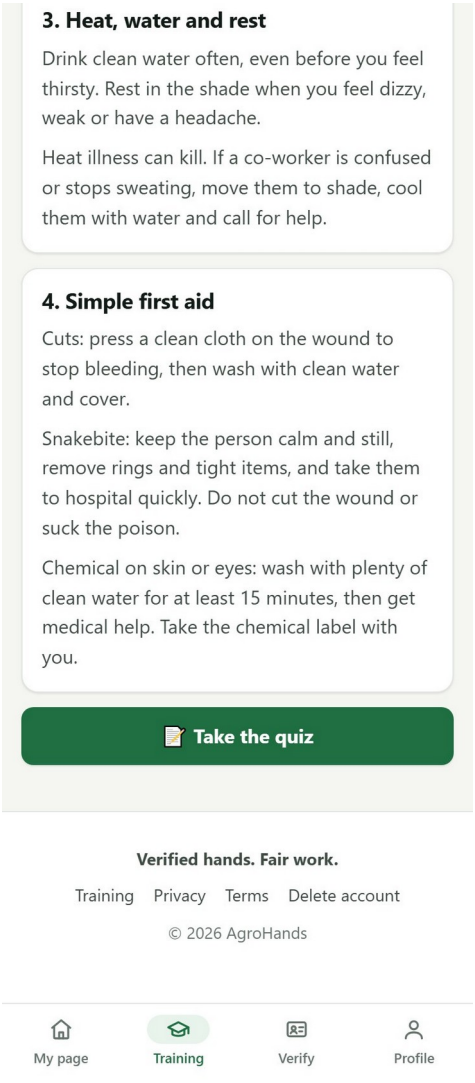

Course	For	Time	Price	Why take it
Your contract, your rights, your conduct	Workers	12 min	Free	Understand your contract and wages, and how to raise a problem.
Safe handling of agrochemicals	Workers	15 min	Free	Reading labels, mixing and spraying safely, what to do after spraying.
Good Agricultural Practices: hygiene and records	Workers	12 min	~~₦2,000~~	Hygiene at harvest and record keeping that buyers and exporters ask for.
Fair employment: contracts, wages and keeping good workers	Farm owners	15 min	Free	The Labour Act basics, lawful wages and deductions, safety duties, keeping workers.

4.1 Reading a course

1. Tap **Training** in the bottom bar, then tap a course.
2. Read each lesson. Take your time; there is no limit.
3. At the bottom tap **Take the quiz**.

Part 1 of 2

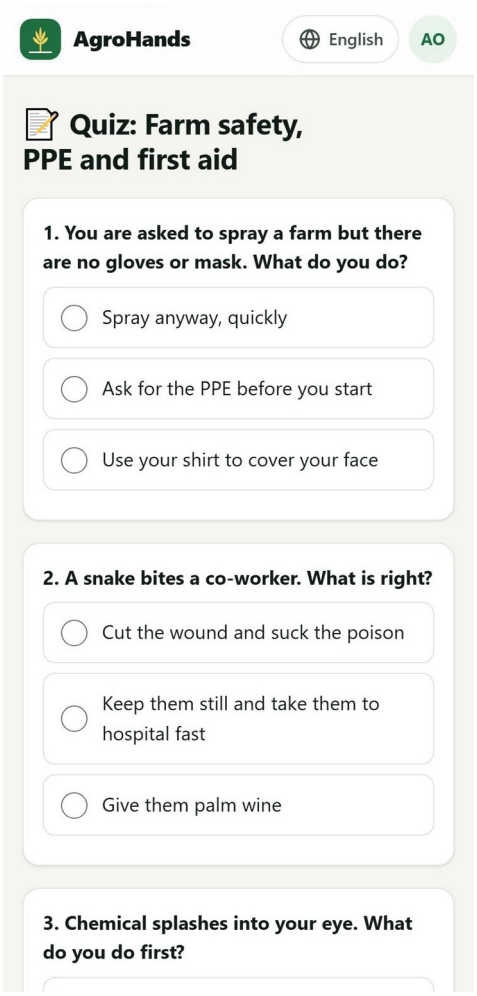

Part 2 of 2

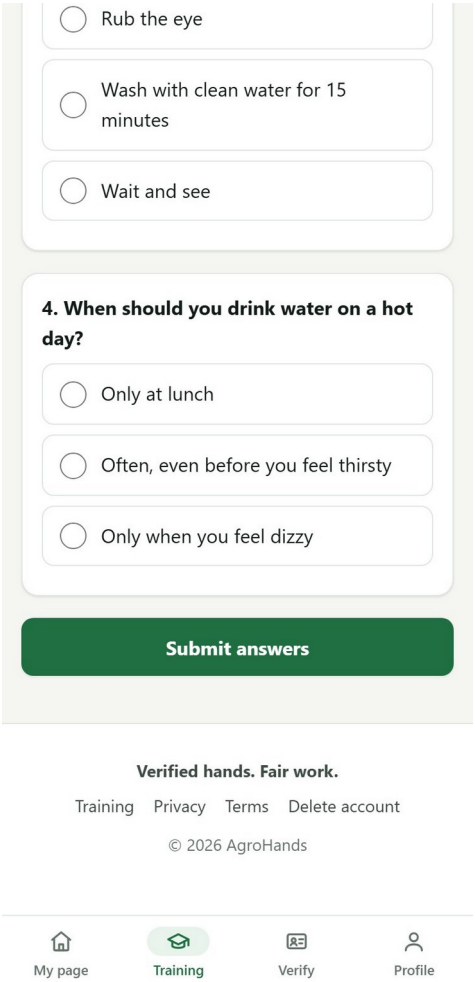

Figure 19. *A course page with its lessons (shown in two parts). The quiz button is at the bottom.*

4.2 Taking the quiz

1. Choose one answer for each question.
2. Tap **Submit answers**.
3. If you score 75% or more you pass and get a certificate. If not, read the lessons again and retry. You can retry as many times as you like, and your best score counts.

Part 1 of 2

Part 2 of 2

Figure 20. *A quiz (shown in two parts). Choose one answer per question.*

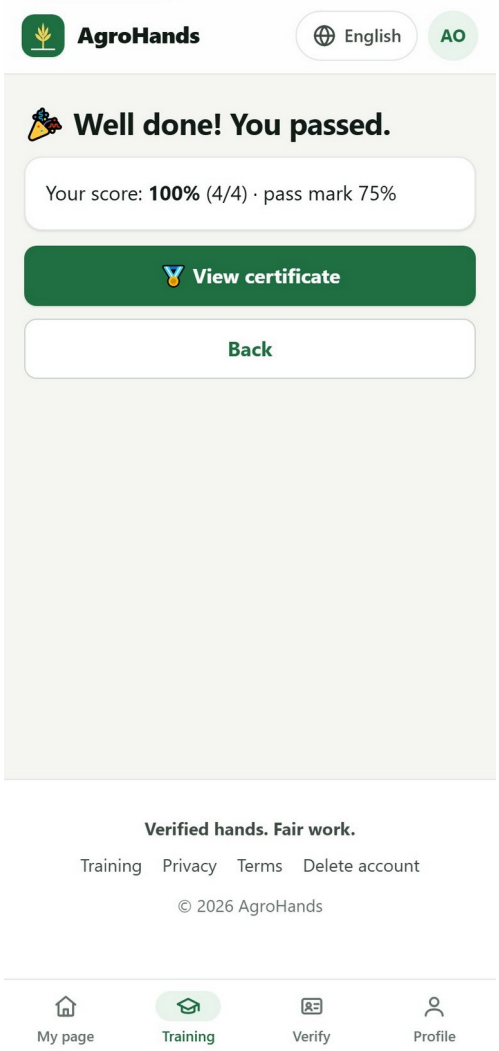

Figure 21. *Passed: your score, and a button to view your certificate.*

4.3 Your certificate

Every certificate has a code (for example AHC-1A2B3C4D). Anyone, for example a farm owner, can check that a certificate is real by opening its page; no login is needed. Tap **Print** to print it or save it as a PDF.

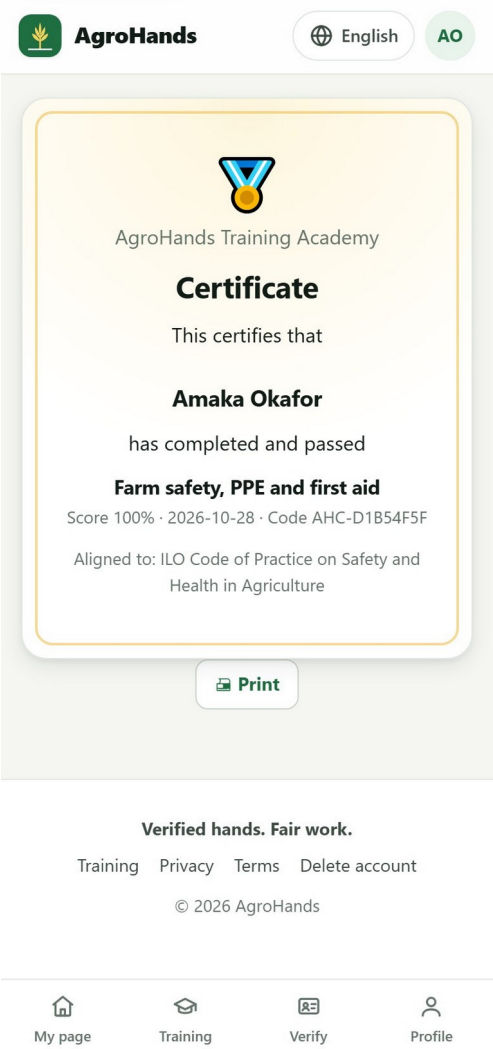

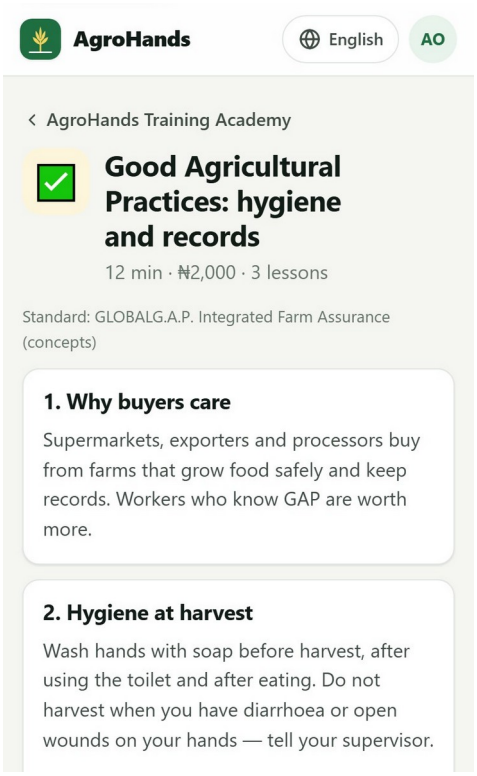

Figure 22. *A certificate. The code at the bottom can be checked by anyone.*

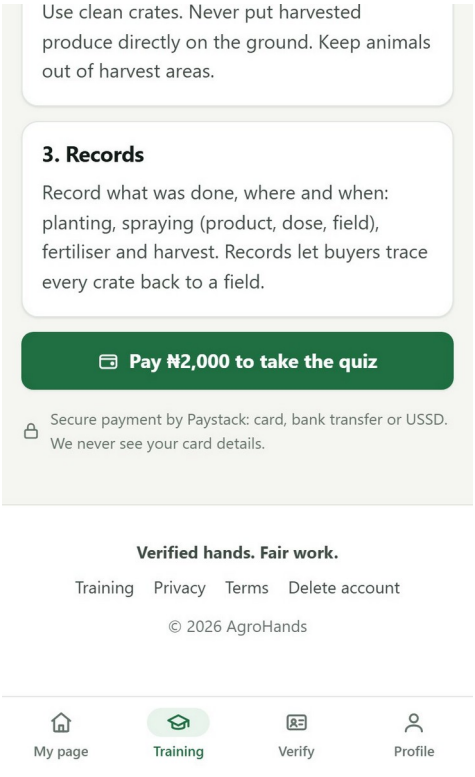

4.4 Paid courses

Some advanced courses cost a small fee, shown on the course and on the button, for example **Pay ₦2,000 to take the quiz**.

1. Open the course on the AgroHands **website** and tap the pay button.
2. You are taken to Paystack's secure payment page. Pay by card, bank transfer or USSD.
3. After payment you return to AgroHands and the quiz opens. AgroHands never sees your card details.

Part 1 of 2

Part 2 of 2

Figure 23. *A paid course on the website. The secure-payment note under the button explains how you pay.*

Good to know

If a payment does not go through, you are not charged and you can try again.

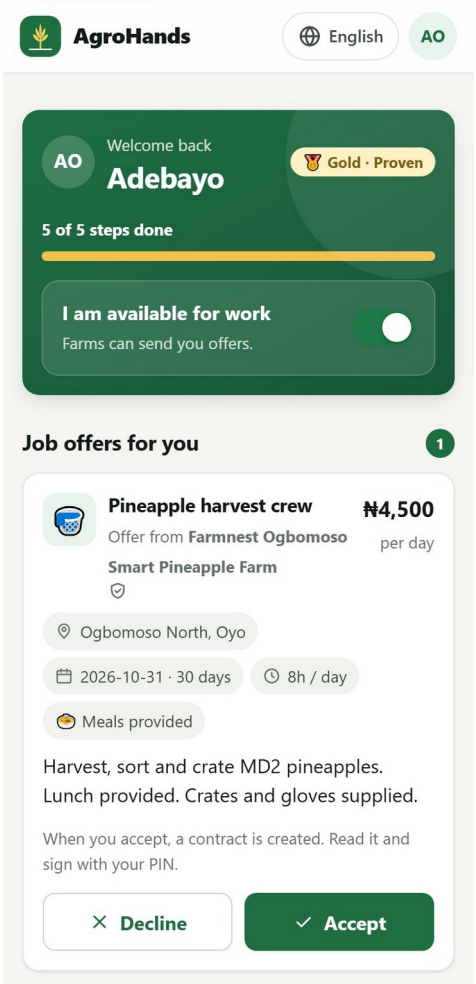

Paid courses cannot be bought inside the Android app; use the website.

While paid courses have not been switched on in your area (pilot period), they are free and the course page says so.

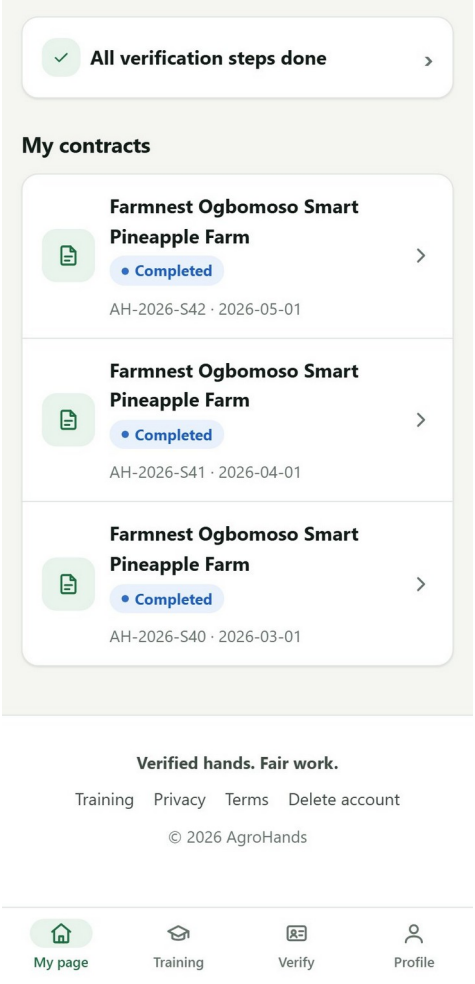

5. Job offers and contracts (workers)

5.1 Receiving a job offer

When a farm owner chooses you, you receive an **SMS** and the offer appears under **Job offers for you** on your page. The offer shows the farm, the work, the pay, the dates, whether housing and meals are provided, and whether the farm has been verified by AgroHands.

Part 1 of 2

Part 2 of 2

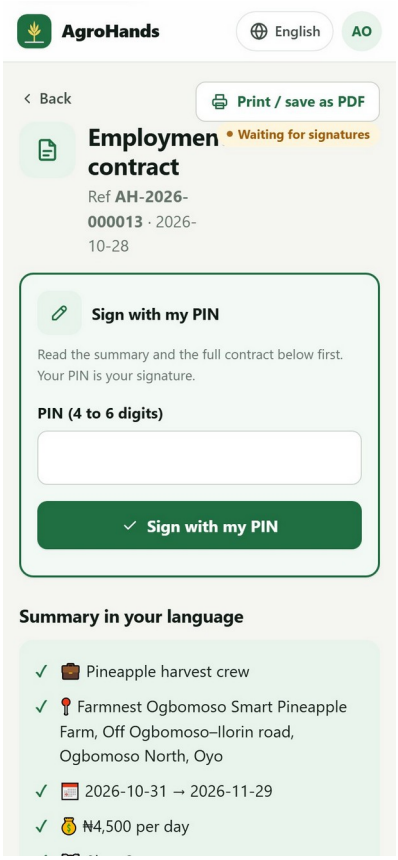

Figure 24. *A job offer on the worker's page (shown in two parts): pay per day, location, dates and hours, meals or housing, and Accept or Decline.*

1. Read the offer carefully: the pay, dates, hours, place and what is provided.
2. Tap **Accept** to take the job, or **Decline** if it does not suit you. Declining does not count against you.
3. When you accept, a written contract is created straight away.

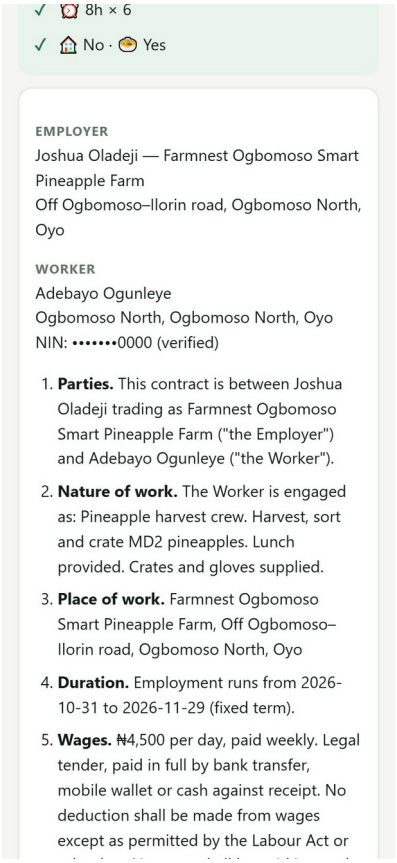

> **Before you accept**
>
> You can only have one job at a time. Check that you can be there on the start date, and that the farm is not too far for you to travel every day.

5.2 Reading and signing your contract

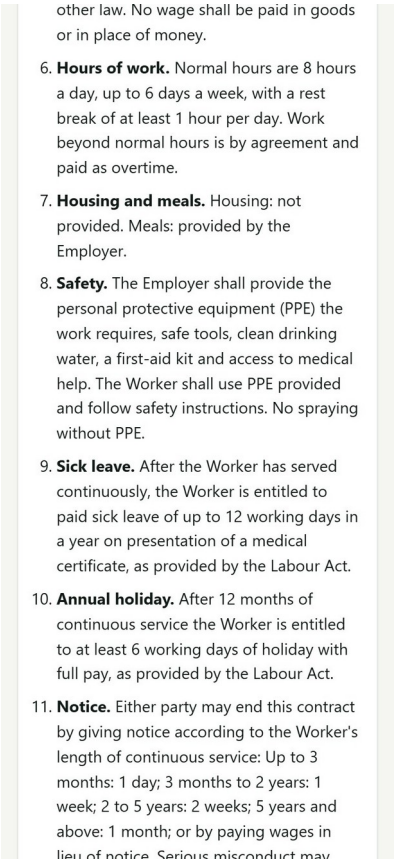

Your contract lists every point the Nigerian Labour Act requires: the parties, the work, the wage and when it is paid, working hours, sick leave, holidays and notice. A short **Summary in your language** comes first; the full contract follows.

Part 1 of 4

Part 2 of 4

Part 3 of 4

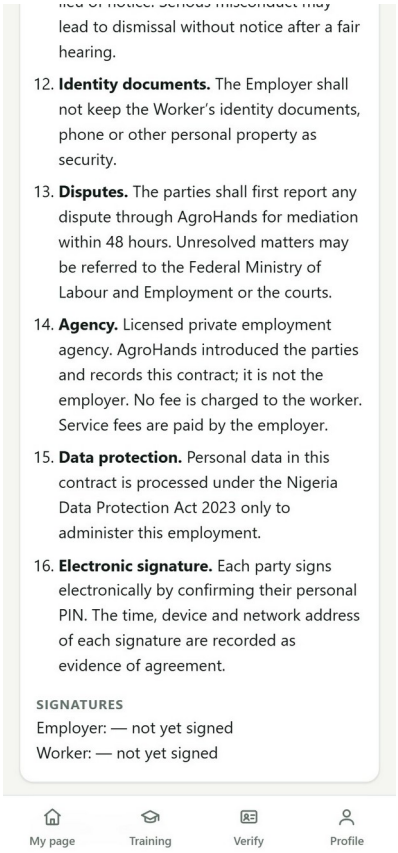

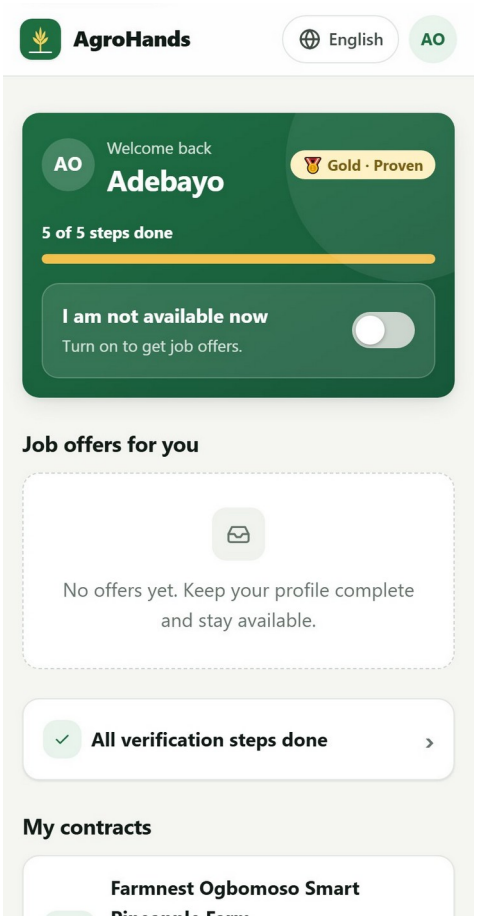

Figure 25. *A contract waiting for the worker's signature (shown in four parts). The signing box is at the top, the summary in your language next, then the full contract.*

1. Read the **Summary in your language**, then the full contract. If anything is unclear, ask an AgroHands agent before you sign.
2. Type your PIN in the signing box and tap **Sign with my PIN**. Your PIN is your signature.
3. AgroHands records the date, time and phone used, as proof of signature.
4. The farm owner then signs. You get an SMS when the contract is **Active**.

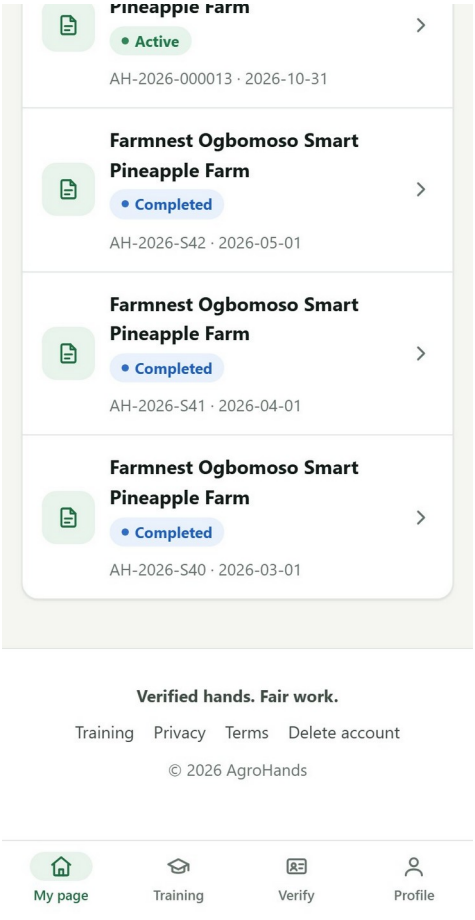

> **Never sign what you do not understand**
>
> Nobody may make you pay to get a job, take your ID card, or keep your phone to stop you leaving. If this happens, report it (section 5.5).

5.3 When the contract is active

Once both sides have signed, the contract is **Active**. Only now can you and the farm owner see each other's phone number. Tap the button showing the other person's number to call them, or **Chat on WhatsApp** to message them. Use **Print / save as PDF** at the top to keep a copy.

Part 1 of 2

Part 2 of 2

Figure 26. *A hired worker's page: the contract is listed under "My contracts" as Active, and availability has been switched off automatically.*

5.4 Ending a contract and rating

At the end of the work, or if the job must stop early, open the contract and tap **End this contract**. As a worker you can choose **Work completed**, **Both agreed to end** or **Farm closed / work stopped**. Only the farm owner or AgroHands can record that a worker left or did not show up.

After a contract, rate the other person from 1 star (very bad) to 5 stars (excellent), with an optional comment. Ratings are honest feedback: good ratings help good farms find workers and good workers find farms.

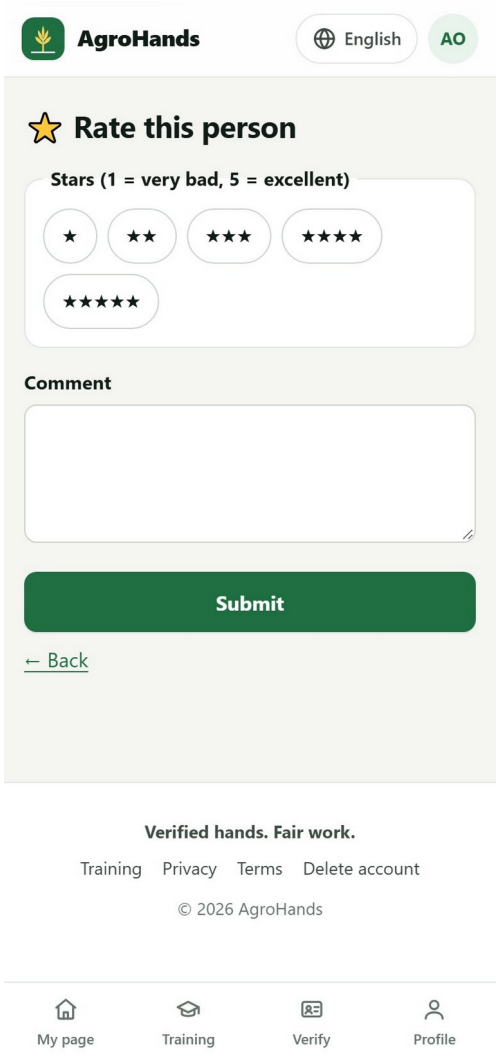

Figure 27. *Rating the other person after a contract.*

5.5 Reporting a problem (dispute)

If something goes wrong (unpaid wages, unsafe work, bad behaviour), open the contract and tap **Report a problem**.

1. Choose what happened: **Wages not paid / paid late**, **Bad behaviour or abuse**, **Unsafe work / no PPE**, **Worker absent / left**, **Theft or damage** or **Something else**.
2. Describe what happened in **Tell us what happened**: dates, amounts, who was involved.
3. Tap **Submit**. AgroHands speaks to both sides and aims to respond within 48 hours. You get an SMS when your complaint has been answered.

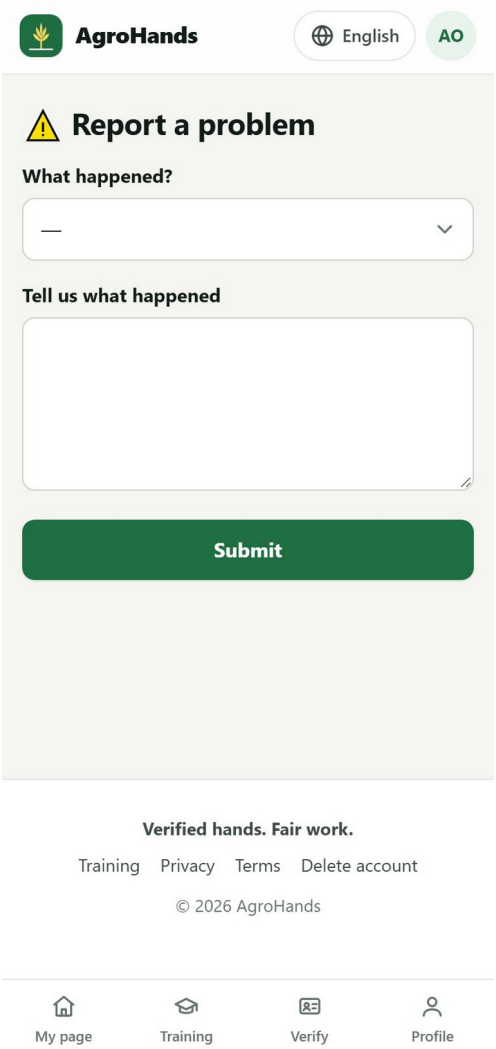

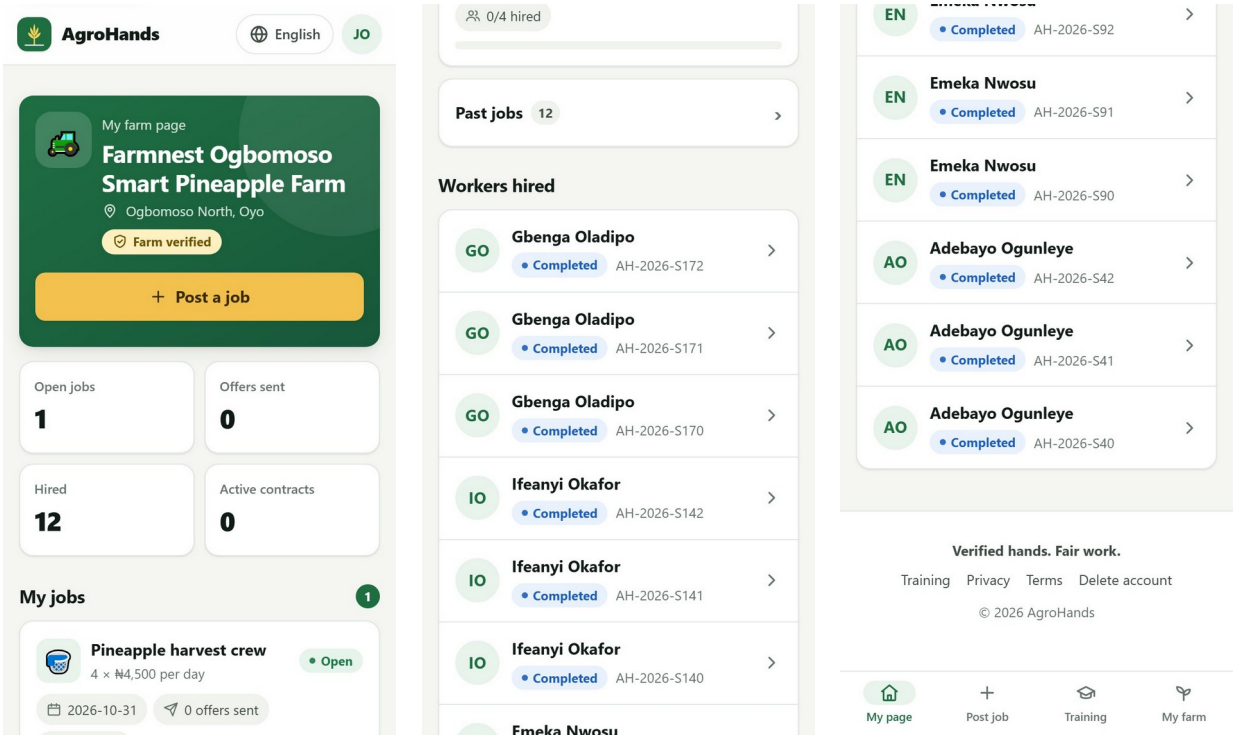

Figure 28. *Reporting a problem on a contract.*

6. Hiring workers (farm owners)

6.1 Your farm page

After registering as a farm owner you are asked for your farm details. Your page (**My page**) then shows your farm, your jobs, offers sent, workers hired and active contracts.

Part 1 of 3 Part 2 of 3 Part 3 of 3

Figure 29. *The farm owner's page (shown in two parts): farm card with the Post a job button, totals, jobs, and workers hired.*

6.2 Adding your farm details

1. Tap **My farm** in the bottom bar.
2. Fill in the farm name, State, LGA and the address or directions.
3. Stand on the farm and tap **Use my current location**. Accurate location is what makes distance matching work.
4. Add the size in hectares, the crops or animals, and your CAC number if the farm is a registered company.
5. Tap **Save**.

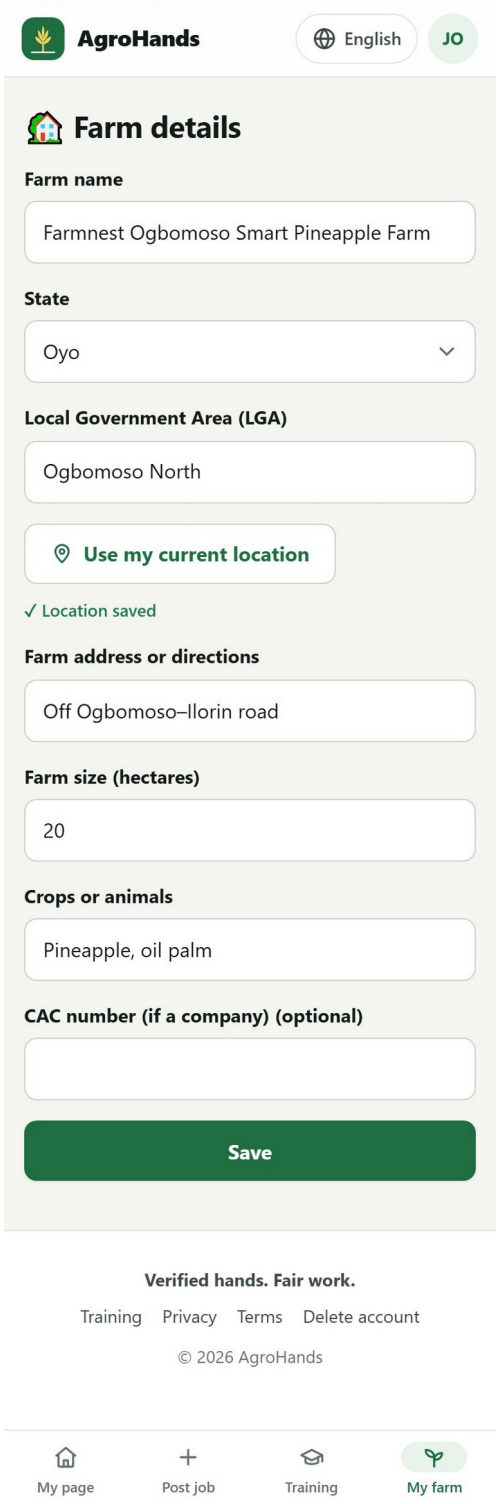

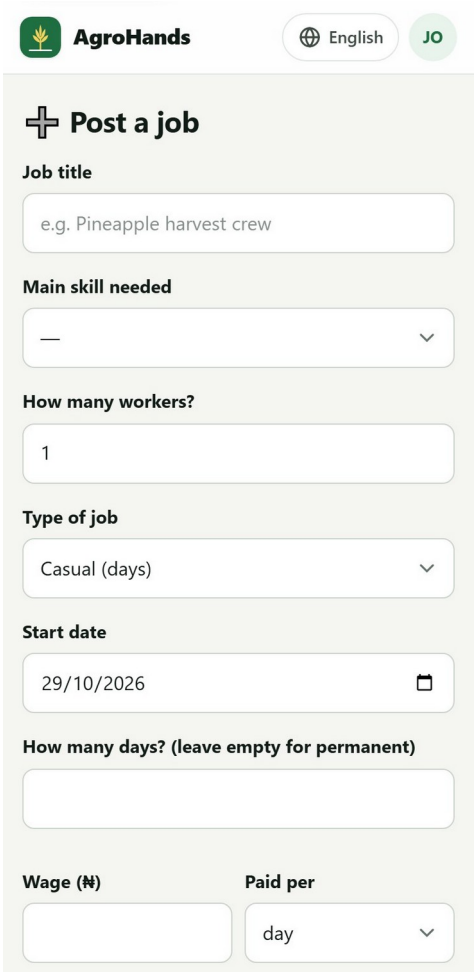

Figure 30. *Farm details. "Location saved" confirms the GPS position.*

A new farm shows *Farm not yet verified*. An AgroHands agent will confirm your farm. You can post jobs straight away, but workers see a **Verified** badge on verified farms, so offers from them are more likely to be accepted.

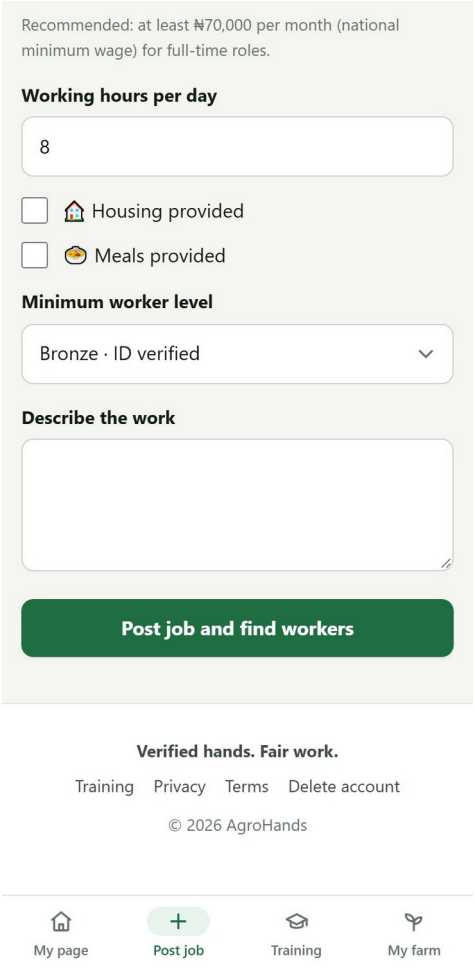

6.3 Posting a job

1. Tap **Post a job** (on your page or in the bottom bar).

2. Fill in the job details (see the table below).
3. Tap **Post job and find workers**. AgroHands immediately ranks the best workers for the job.

Part 1 of 2

Part 2 of 2

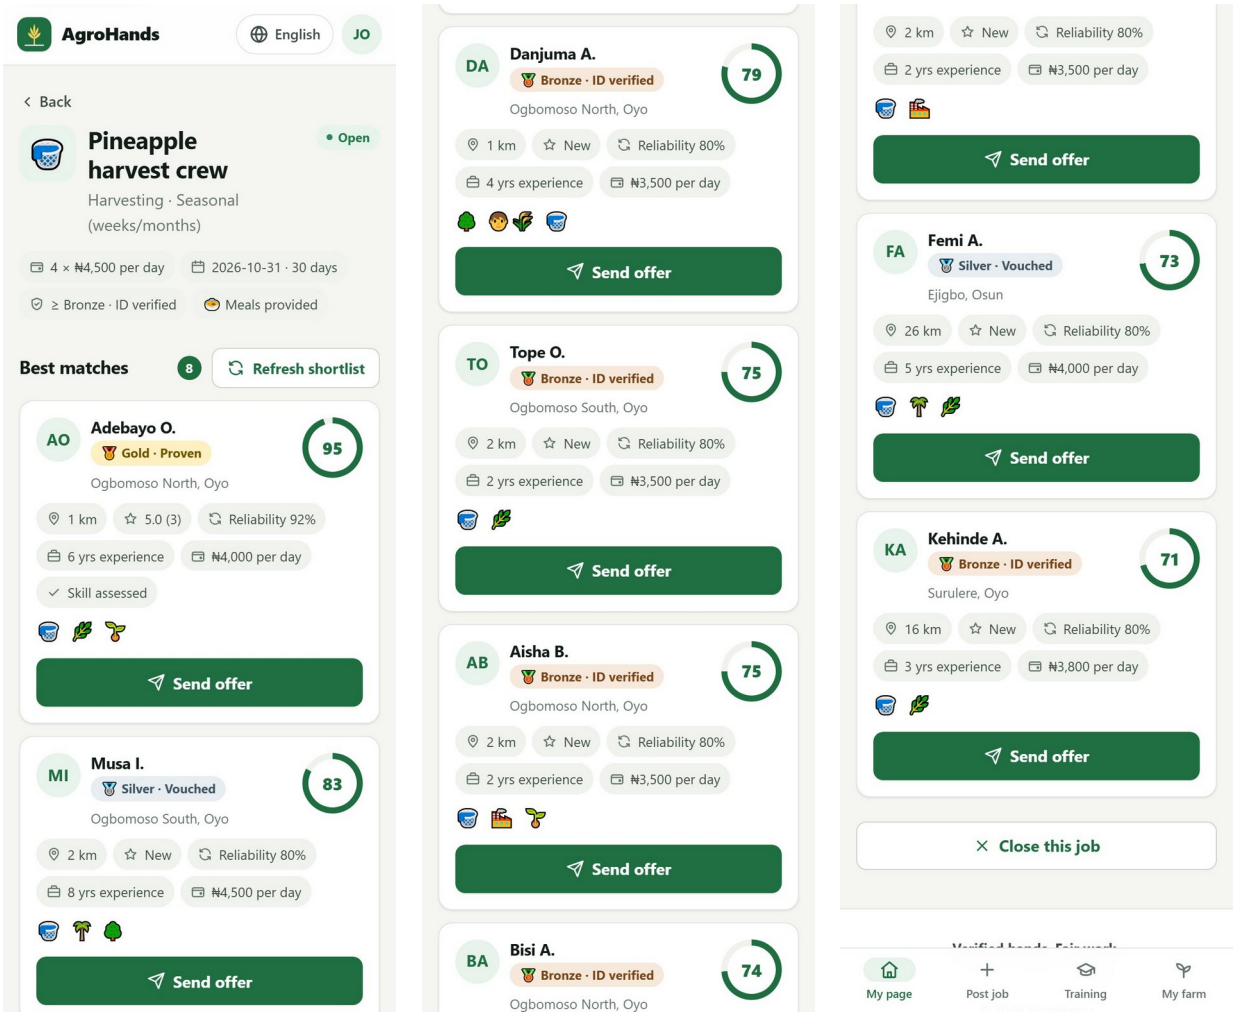

Figure 31. *The job form (shown in two parts).*

Field	What to enter
Job title	A short name, for example *Pineapple harvest crew*.
Main skill needed	The skill that matters most; only workers with this skill are matched.
How many workers?	The job closes automatically when this many have signed.
Type of job	**Casual** (days), **Seasonal** (weeks or months) or **Permanent**.
Start date, How many days?	Leave days empty for permanent work.
Wage (₦), Paid per	Per day or per month. For full-time work AgroHands recommends at least ₦70,000 a month (the national minimum wage) and warns you if you offer less.
Working hours per day	Normally 8.
Housing provided, Meals provided	Tick what you offer. Housing lets workers from further away qualify.

Field	What to enter
Minimum worker level	Registered, Bronze, Silver or Gold. A higher level means more trusted workers, but fewer of them.
Describe the work	Tasks, tools, conditions. Clear descriptions get more acceptances.

6.4 Your ranked shortlist

For every job, AgroHands shows **Best matches**: workers who meet all of your requirements, ranked by a **Match score** out of 100. For privacy, you see a worker's first name and surname initial, level, distance, rating and experience, but not their phone number or address until both of you have signed a contract.

Part 1 of 3 Part 2 of 3 Part 3 of 3

Figure 32. *A job with its ranked shortlist (shown in three parts). Each worker card shows the match score ring, level, distance, rating, reliability, experience, expected wage and skills.*

How workers are chosen and ranked

A worker appears only if **all** of these are true: they have the main skill; they are available; they are at or above your minimum level; they are 18 or older; their expected wage is not far above yours; and they live within their travel distance, or you provide housing and they are willing to live on the farm.

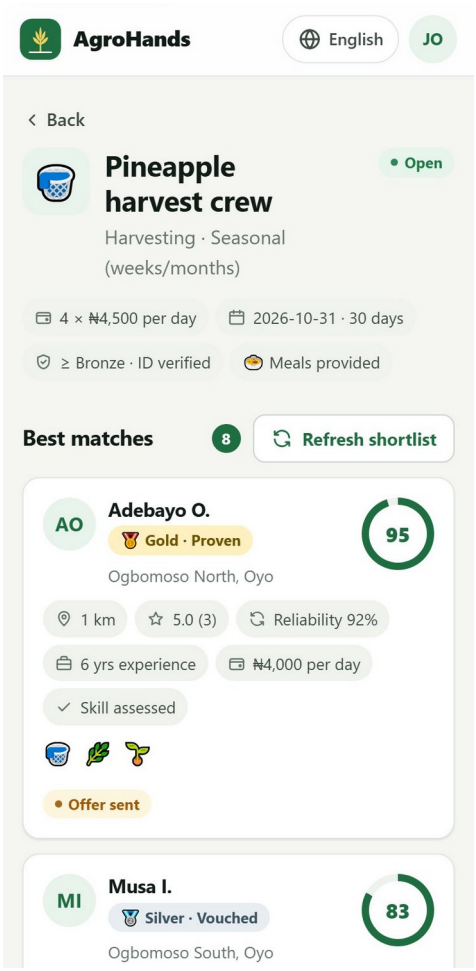

Ranking factor	Weight	What it means
Skill	30	Main skill, and extra points if an agent has tested the skill (**Skill assessed**).
Reliability	25	How often the worker finished jobs instead of leaving early or not showing up.
Rating	20	Average stars from previous farms.
Distance	15	Closer is better.
Level	10	Bronze, Silver or Gold.

New workers with no history are marked **New** and given a fair middle score, so they can get their first job.

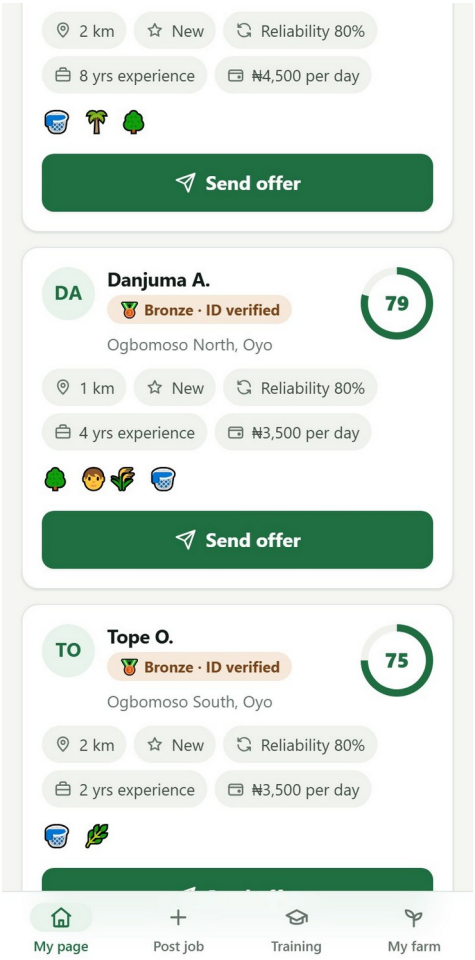

> **No matching workers?**
>
> Try a lower minimum level, a higher wage, or providing housing. Tap **Refresh shortlist** after changes, or later as new workers join. AgroHands agents also recruit in your area.

6.5 Sending offers

1. On the shortlist, tap **Send offer** on the worker you want. The worker gets an SMS straight away.
2. The card changes to **Offer sent**. You can send offers to more workers than you need; the job fills on a first-signed basis.
3. When a worker accepts, you get an SMS with a link to sign the contract. If they decline, you are told so you can choose someone else.

Part 1 of 2

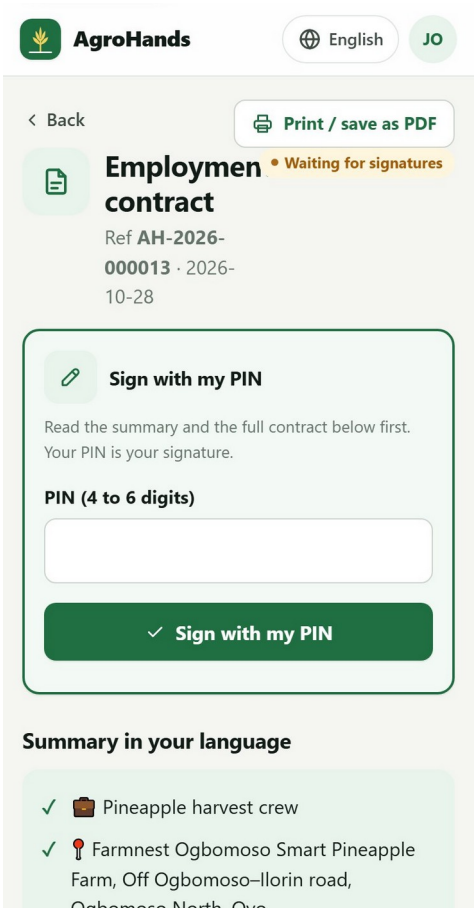

Part 2 of 2

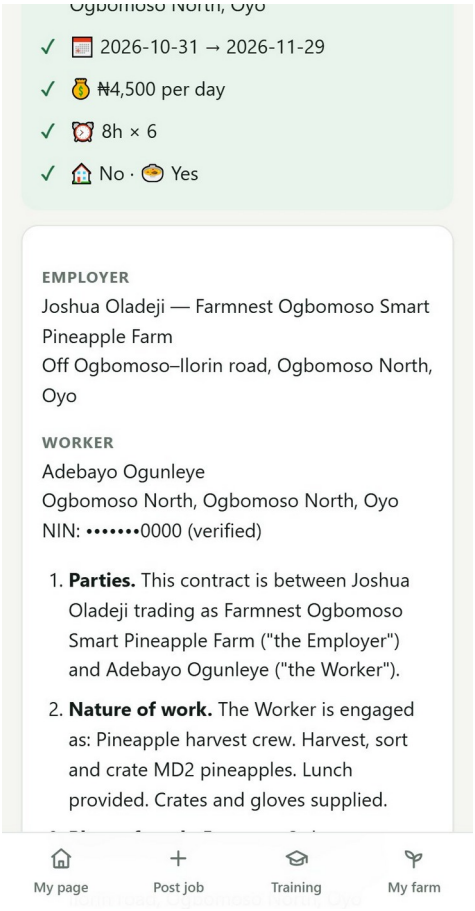

Figure 33. *After sending an offer, the worker's card shows "Offer sent" (shown in two parts).*

6.6 Signing and managing contracts

The contract is created when the worker accepts. Open it from the SMS link or from **Workers hired** on your page, read it, then type your PIN and tap **Sign with my PIN**.

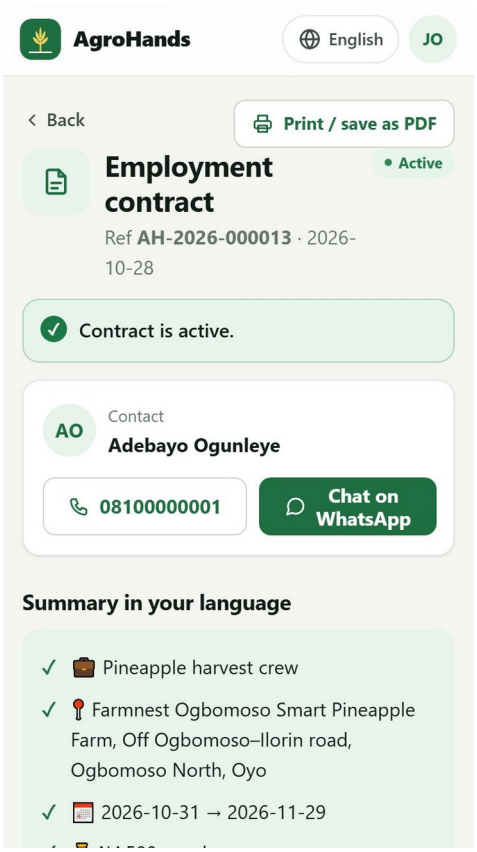

Part 1 of 2

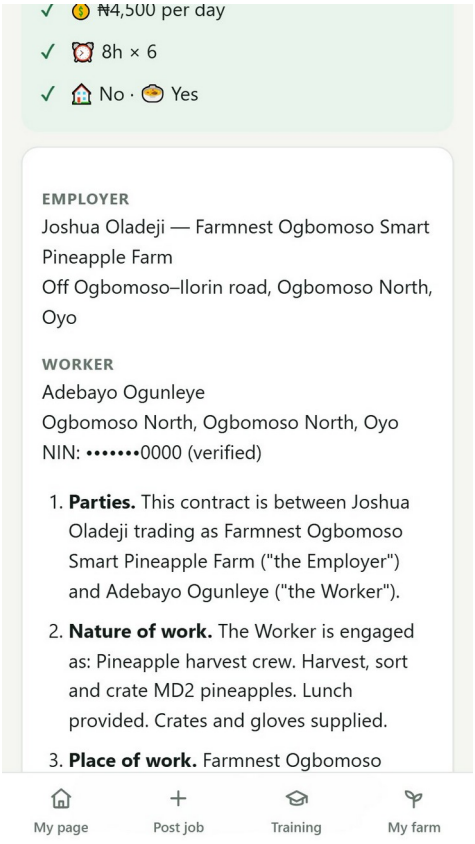

Part 2 of 2

Figure 34. *The farm owner's view of a contract the worker has already signed (shown in two parts).*

When both have signed, the contract is **Active**. The worker's phone number appears as a call button, next to **Chat on WhatsApp**.

Part 1 of 2

Part 2 of 2

Figure 35. *An active contract (shown in two parts): the green banner, the worker's contact details, the summary, the full contract and, at the bottom, End this contract.*

Ending a contract

Open the contract, tap **End this contract**, choose the reason and confirm. Be accurate: the reason affects the worker's reliability score.

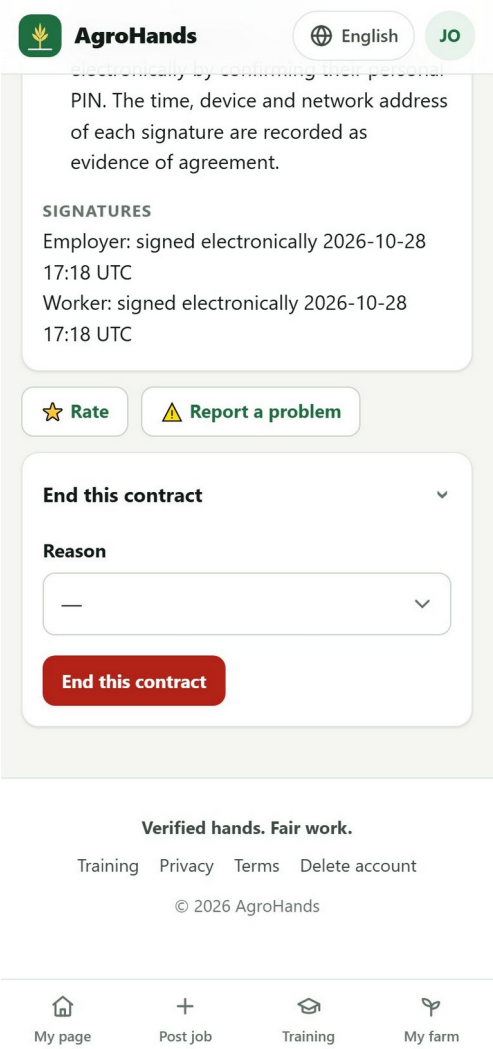

Figure 36. *Ending a contract: choose the reason.*

Reason	When to use it
Work completed	The work was done as agreed.
Both agreed to end	You and the worker agreed to stop early.
Farm closed / work stopped	The work ended for reasons that are not the worker's fault (weather, sale, illness…).
Worker dismissed	You ended the contract because of the worker's conduct or performance.
Worker left without notice	The worker stopped coming without the notice in the contract.
Worker did not show up	The worker never started.

> **Your duties as an employer**
>
> Pay the full wage in money, on the agreed day. Do not deduct for tools, food or "fines".
>
> Provide the protective equipment the work needs, especially for spraying and machinery.
>
> Never employ anyone under 18 for farm work. AgroHands blocks under-18s from shortlists.

Rating, disputes and contract printing work the same as for workers (sections 5.3 to 5.5).

7. Using AgroHands without a smartphone (USSD)

Workers with a basic phone can register, see and accept job offers, check their level and change language by dialling the AgroHands USSD code. It works on every network without internet or data. Your AgroHands team will announce the code at launch; it looks like *384*XXXX#.

1. Dial the AgroHands USSD code and press **Call**.
2. A menu appears. Type the number of your choice and press **Reply** (or **Send**).
3. Keep replying until you see the final message.

7.1 Registering by USSD

1. Main menu

```
AgroHands
1. Register for farm work
2. My job offers
3. My status
4. Language
[ Reply ]   [ Cancel ]
```

Reply **1** to register.

2. Your name

```
Enter your full name
(By continuing you accept
AgroHands Terms &
Privacy)
[ Reply ]   [ Cancel ]
```

Type your full name.

3. Your State

```
Enter your State (e.g.
Oyo)
[ Reply ]   [ Cancel ]
```

Type your State, for example **Kwara**.

4. Your main work

```
Choose your main work:
1. General farm hand
2. Planting
3. Weeding
4. Harvesting
5. Spraying
6. Palm fruit harvesting
7. Poultry
8. Tractor operator
9. Farm security
[ Reply ]   [ Cancel ]
```

Reply with the number, for example **6**.

5. Choose a PIN

```
Choose a 4-digit PIN
[ Reply ]   [ Cancel ]
```

Choose 4 digits you will remember.

6. Confirm the PIN

```
Enter the PIN again
[ Reply ]   [ Cancel ]
```

Type the same 4 digits again.

7. Done

```
Registered! Visit an
AgroHands agent with your
NIN slip to get verified.
[ OK ]
```

Take your NIN slip to an AgroHands agent to get verified.

Check your status (option 3)

```
Level: Registered
Next step: Verify your
NIN
[ OK ]
```

Shows your level and your next step.

Change language (option 4)

```
Language
1. English
2. Pidgin
3. Yorùbá
4. Hausa
5. Igbo
6. Français
[ Reply ]   [ Cancel ]
```

Reply with the number of your language.

When you register by USSD, your phone number is confirmed by your network, so no SMS code is needed. You can later log in on any smartphone with the same number and PIN.

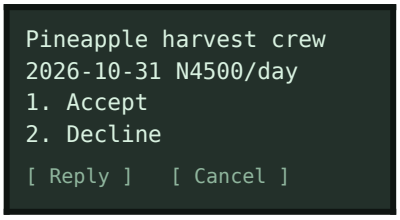

7.2 Seeing and accepting job offers by USSD

Option 2: My job offers

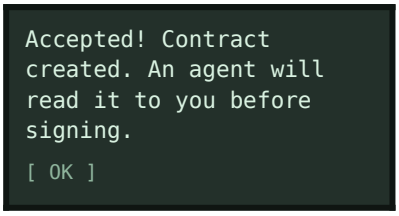

Each offer shows the job, pay and place. Reply with its number.

The offer

Reply **1** to accept or **2** to decline. Accepting asks for your PIN.

Accepted

An agent reads the contract to you before you sign it.

> **Contracts for USSD users**
>
> Contracts cannot be shown in full on a basic phone. After you accept, an AgroHands field agent reads the contract to you in your language before you sign.

8. Your account, security and privacy

8.1 Changing your PIN

1. Tap your initials (top right) and choose **Change PIN**.
2. Type your **Current PIN**, then the new PIN twice.
3. Tap **Save**. You stay logged in on this phone; every other phone or computer is logged out.

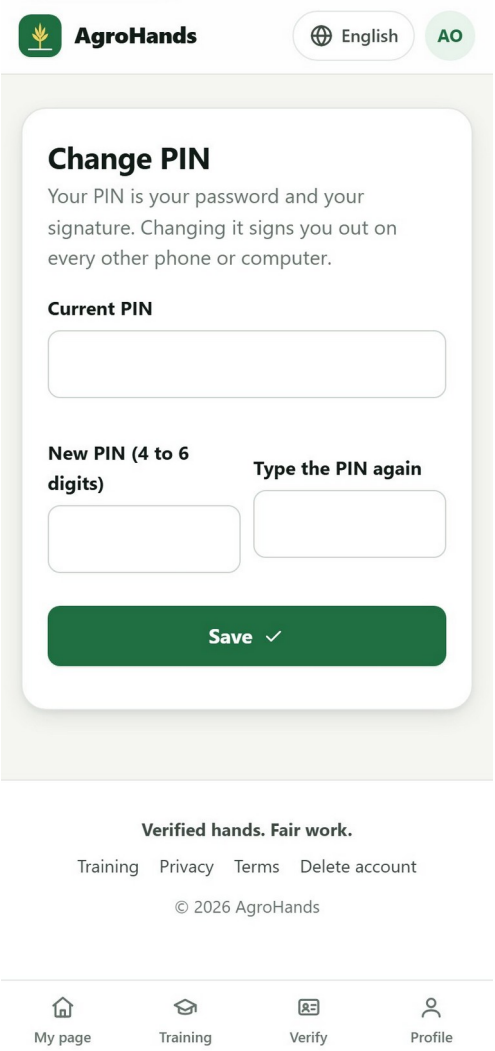

Figure 37. *Changing your PIN.*

8.2 Logging out of other phones

If you logged in on someone else's phone, or lost a phone, open **Change PIN**. If you are logged in elsewhere, a button **Sign out on all other devices** appears below the form. Tap it. If the phone was lost or stolen, also change your PIN.

8.3 Downloading your data

Under the Nigeria Data Protection Act you may see the information AgroHands holds about you. Tap your initials and choose **Download my data**. A file is downloaded with your profile, consents, contracts, ratings received and training results. Secrets such as your PIN are never included.

8.4 Deleting your account

1. Tap your initials and choose **Delete my account**.
2. Type the word **DELETE** in capital letters to confirm.
3. Tap **Delete my account**. This happens immediately and cannot be undone.

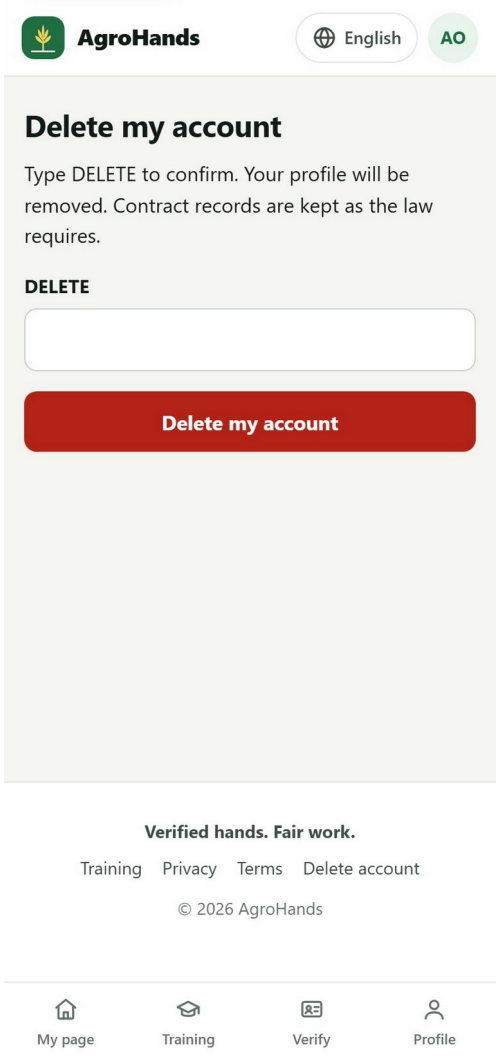

Figure 38. *Deleting your account.*

Your name, phone number, PIN, date of birth, location, guarantor and NIN code are removed. Signed contracts and signature records are kept for 6 years, as labour and tax law require, linked to "Deleted user". If you cannot log in (for example, you registered by USSD), the public page **Delete account** (link at the bottom of every page) explains how to ask AgroHands to delete it.

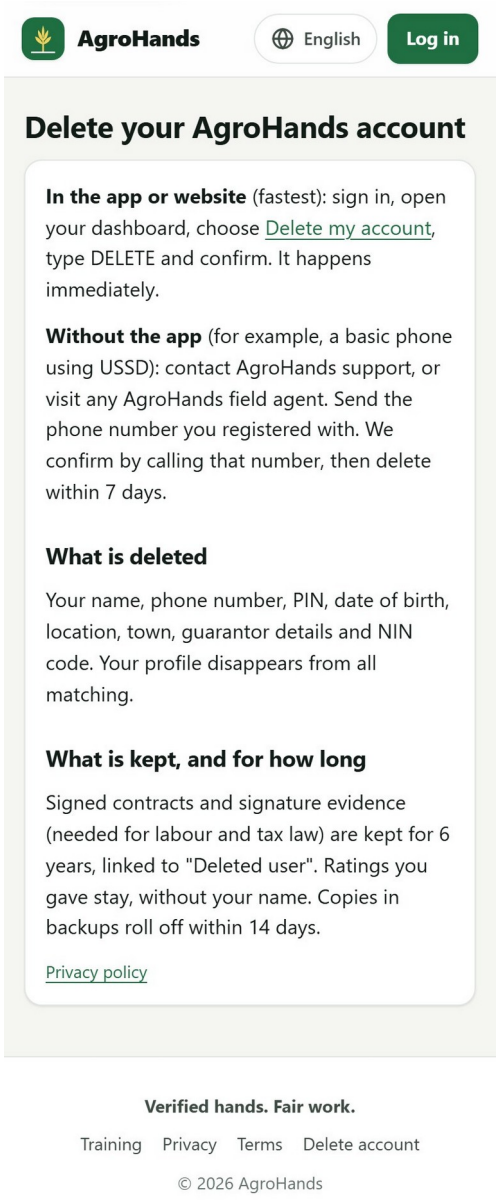

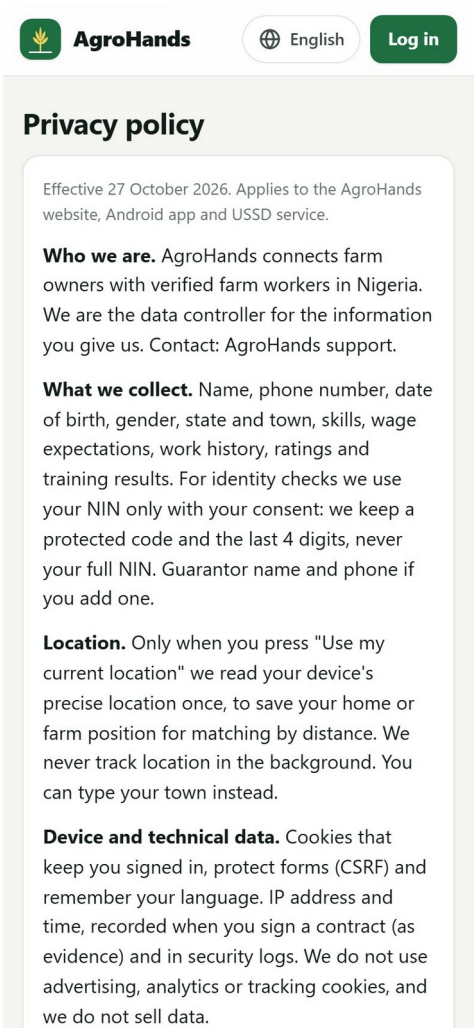

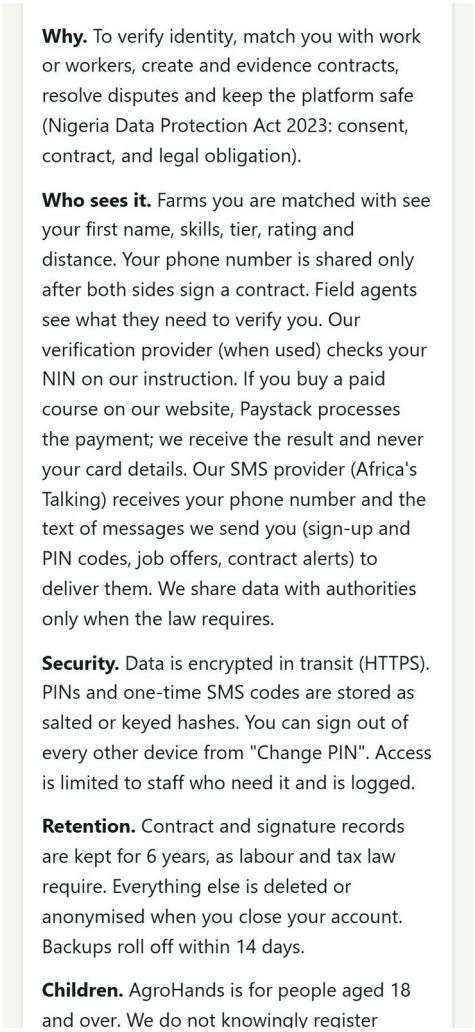

Figure 39. *The public "Delete your AgroHands account" page, which needs no login.*

8.5 Privacy

The **Privacy** page (link at the bottom of every page) explains what AgroHands collects, why, who can see it and how long it is kept. In short: farms see your first name, skills, level, rating and distance; your phone number is shared only after both sides sign a contract; your full NIN is never stored; there is no advertising or tracking.

Part 1 of 2

Part 2 of 2

Figure 40. *The privacy policy (shown in two parts).*

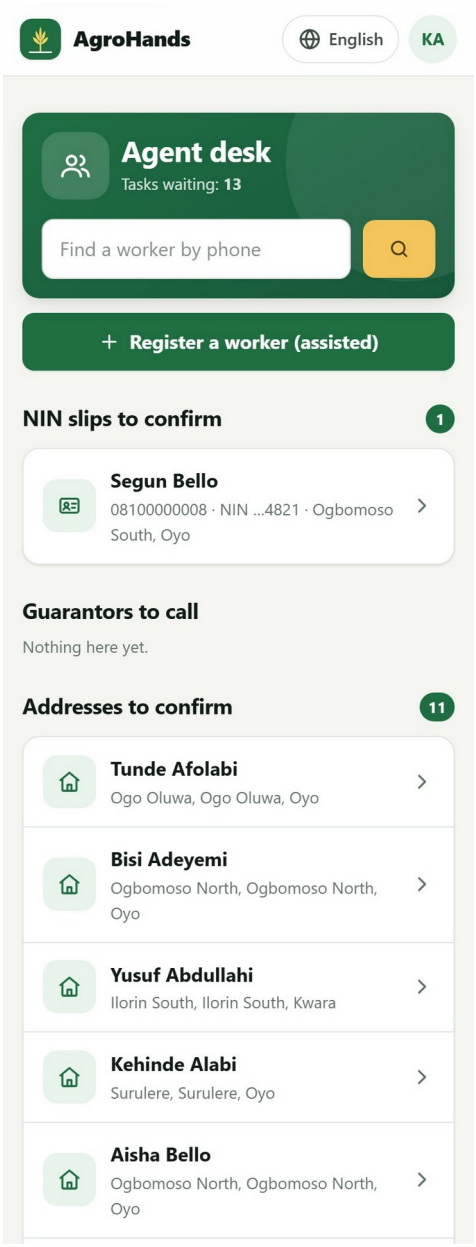

9. The agent desk (field agents)

Field agents are AgroHands staff who work in communities and on farms. Accounts are given the agent role by an administrator. When you log in as an agent, you arrive on the **Agent desk**.

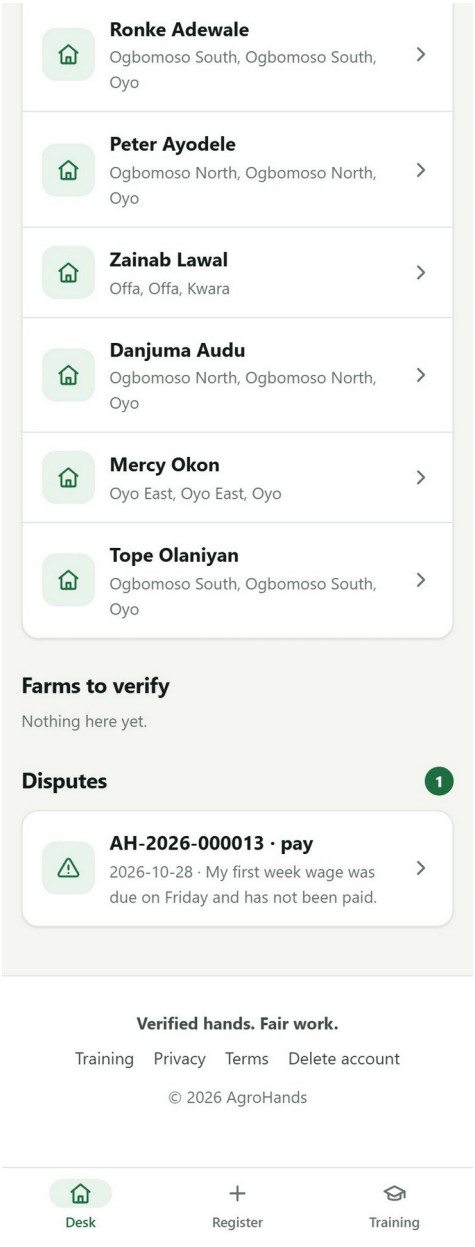

9.1 Your work queues

The desk lists everything waiting for an agent, with the number of items in each queue:

Queue	What to do
NIN slips to confirm	Workers who entered a NIN that needs checking. Meet the worker, look at the NIN slip or ID card, and confirm or reject.
Guarantors to call	Call the guarantor, confirm they know the worker and will vouch for them, then confirm or reject.
Addresses to confirm	Visit or otherwise confirm where the worker lives.
Farms to verify	Visit the farm, confirm it exists at the location shown (tap **map**), then tap **Farm visited and verified**.
Disputes	Open contracts with a reported problem. Help both sides; administrators record the outcome.

Part 1 of 2

Part 2 of 2

Figure 41. *The agent desk (shown in two parts): search by phone number, register a worker, and the queues.*

> **Find a worker quickly**
>
> Type the worker's phone number in the search box at the top of the desk and tap the search button.

9.2 Reviewing a worker

Tap a worker in a queue (or search for them) to open their review page. It shows their details and a card for each check:

- **NIN**: when pending, tap **I have seen the NIN slip and the face matches** to confirm, or **Reject NIN**. If the worker has no NIN on file, you can enter it here with their consent.
- **Guarantor**: the guarantor's name and phone (tap to call). After the call tap **Guarantor called and vouches** or **Guarantor did not vouch**.

- **Address**: tap **Address confirmed** once checked.
- **Practical skill assessment**: watch the worker do the work, choose the skill they passed and tap the tick. Assessed skills are marked on the farm's shortlist and count towards Gold.

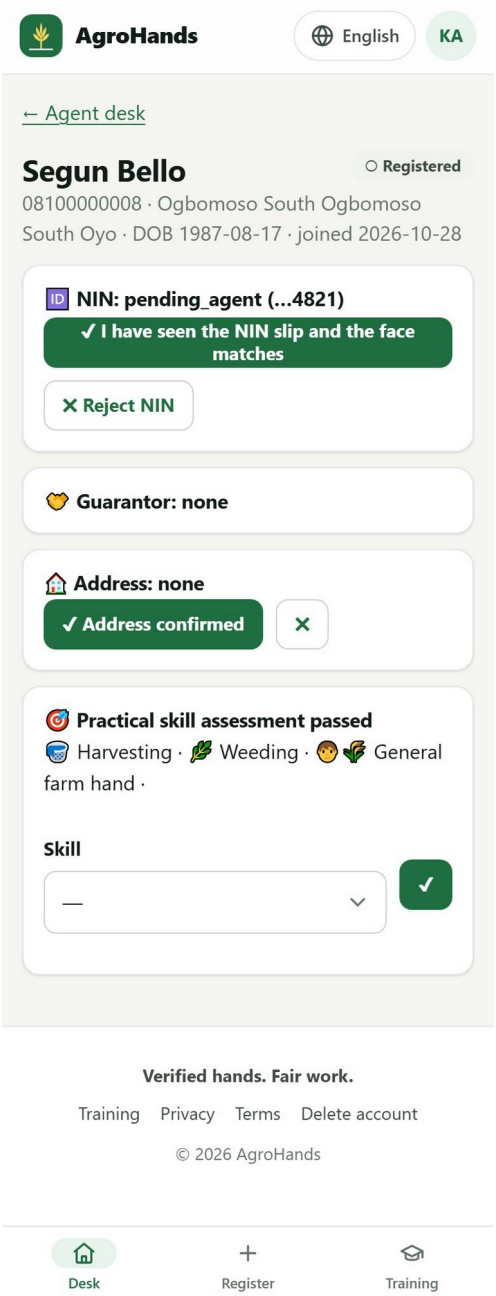

Figure 42. *A worker's review page, with a NIN waiting for confirmation.*

> **Only confirm what you have checked yourself**
>
> Every agent action is recorded with your name and the time. Never confirm a NIN without seeing the slip and the person, or a guarantor without speaking to them.

9.3 Registering a worker who has no smartphone

1. On the desk tap **Register a worker (assisted)**.

2. Enter the worker's full name (as on their NIN), phone number, State, LGA, town and best skill.
3. Read the Terms and Privacy Notice to the worker in their language. When they agree, tick the box.
4. Tap **Create account**. A **temporary PIN** is shown once. Tell it to the worker privately.
5. The worker also receives a welcome SMS. Advise them to choose their own PIN with **Forgot your PIN?** or by USSD.

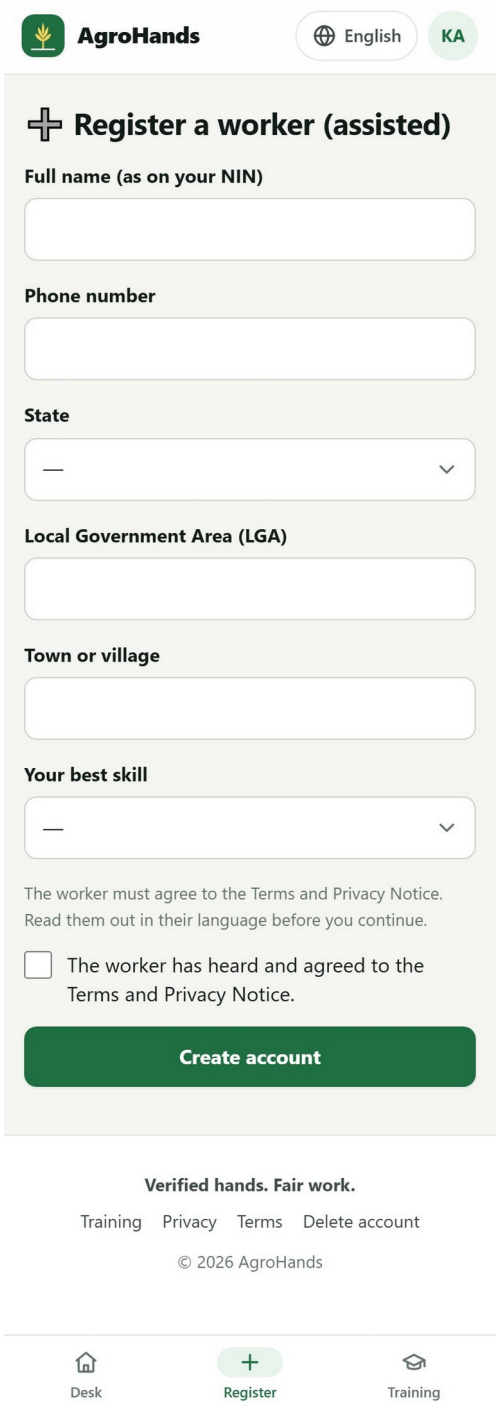

Figure 43. *Assisted registration.*

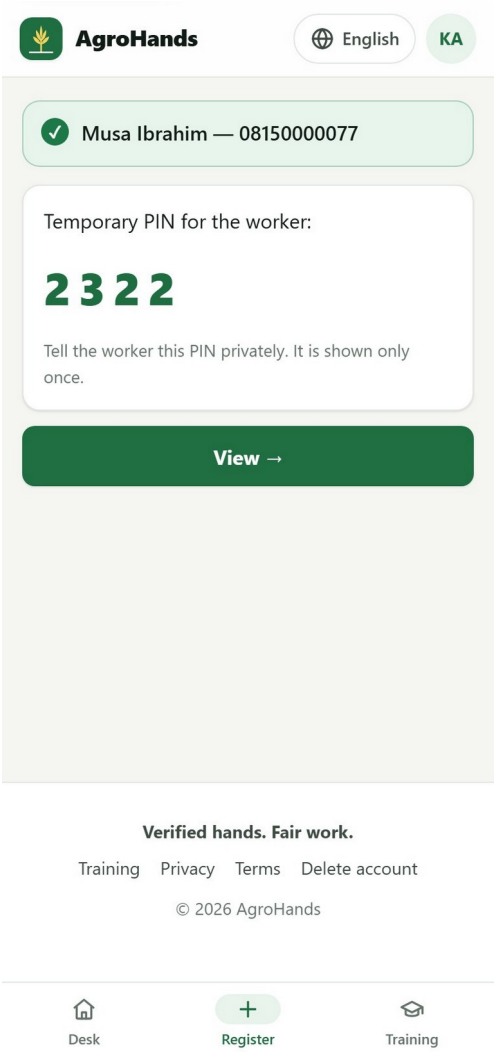

Figure 44. *The account is created. The temporary PIN is shown only once.*

10. The admin console (administrators)

Administrators run AgroHands day to day. The console works best on a computer; the pictures below are from a computer screen. Every action in the console is written to the audit log with the administrator's name.

10.1 Getting administrator access

The first administrator is created by the technical team on the server, which prints a one-time PIN to change after the first login. Phone numbers listed in the server setting `ADMIN_PHONES` also become administrators when they register. An administrator can then give other people the agent or admin role (section 10.3).

10.2 Overview

The **Overview** shows a **Needs attention** list: open disputes, farms waiting for verification, NIN slips waiting for an agent, failed SMS, payments stuck for more than an hour, and a warning when SMS use nears the daily limit. Tap an item to go straight to it. Below are marketplace figures and the CSV exports.

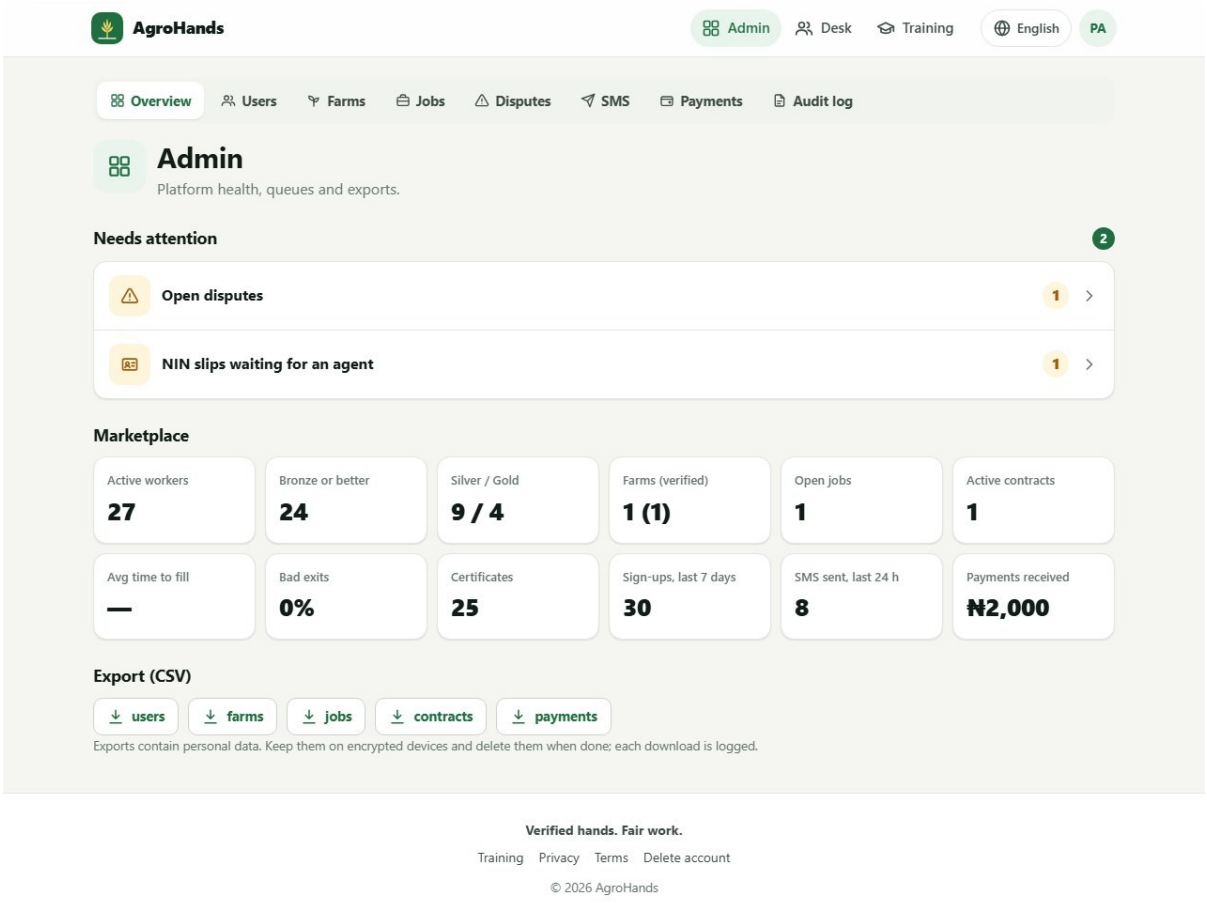

Figure 45. *The admin overview: "Needs attention", marketplace figures and exports. The tabs at the top lead to each section.*

Figure	Meaning
Active workers / Bronze or better / Silver / Gold	How many workers there are, and at what level.
Farms (verified)	All farms, and how many an agent has verified.
Open jobs / Active contracts	Work currently on offer, and people currently working.
Avg time to fill	Average hours from posting a job to filling it.
Bad exits	Share of finished contracts where the worker left without notice or did not show up.
Certificates	Courses passed.
Sign-ups, last 7 days / SMS sent, last 24 h / Payments received	Growth, messaging and income.

10.3 Users

Search by name or phone number (any format: 0803…, +234 803…), and filter by role and status. Tap a person to open their page: verification state, signed-in devices, farms, contracts and recent activity.

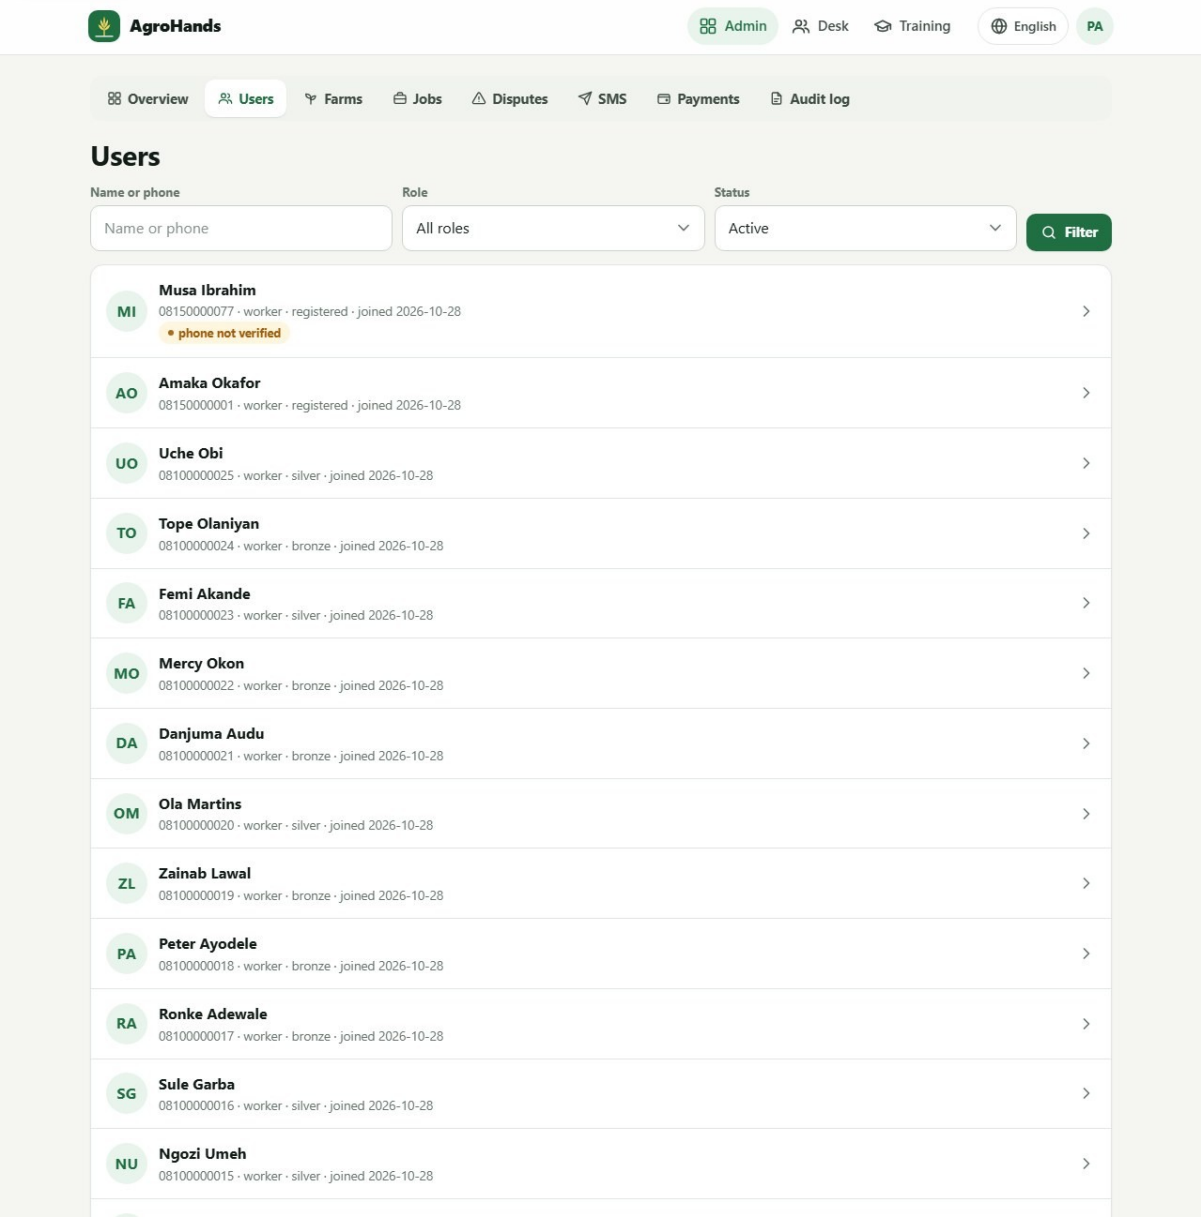

Figure 46. *The user list with search and filters. "phone not verified" marks accounts whose number was never confirmed by SMS or USSD.*

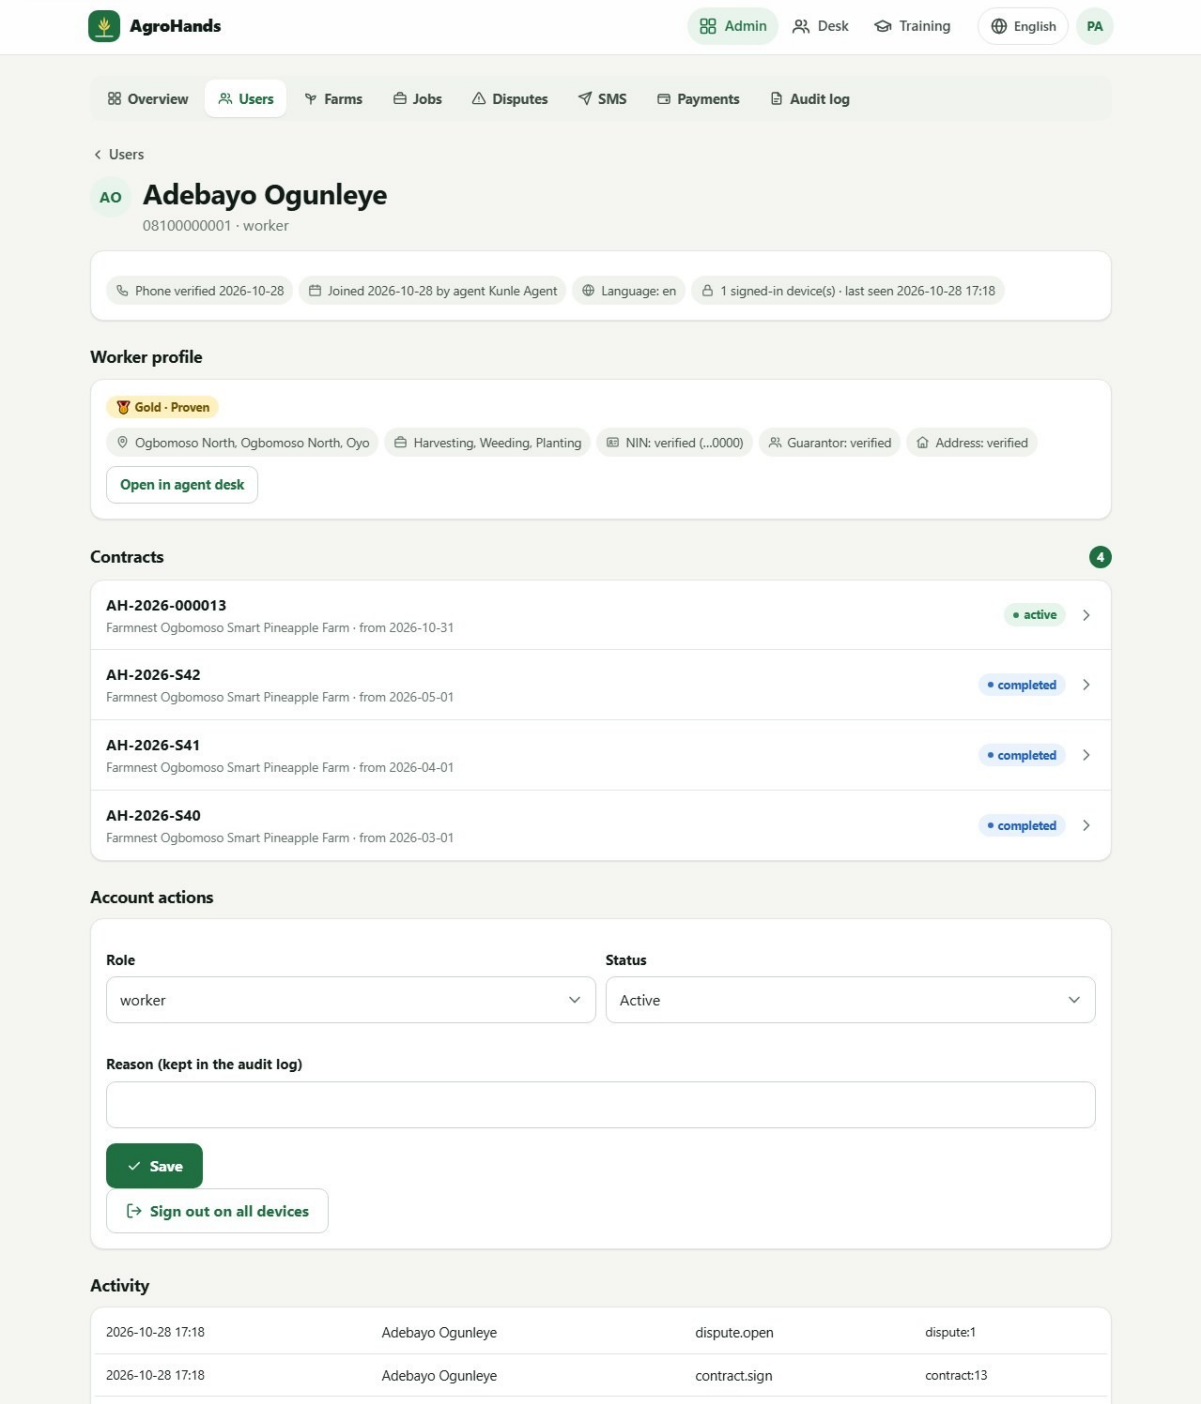

Figure 47. *A user's page, with account actions near the bottom.*

Changing a role or suspending someone

1. Open the person's page.
2. Under **Account actions** choose the **Role** (worker, farmer, agent, admin) and **Status** (Active or Suspended).
3. Type a **Reason**. It is kept in the audit log.
4. Tap **Save**. The change takes effect at once and the person is logged out on every device.

Sign out on all devices logs the person out without changing anything else, for example when they report a lost phone. You cannot change your own role or status.

10.4 Farms

Lists farms, unverified first, with owner, phone, location (with a **map** link), number of jobs and CAC number. Tap **Verify** after a field check, or **Unverify** if a farm turns out to be wrong.

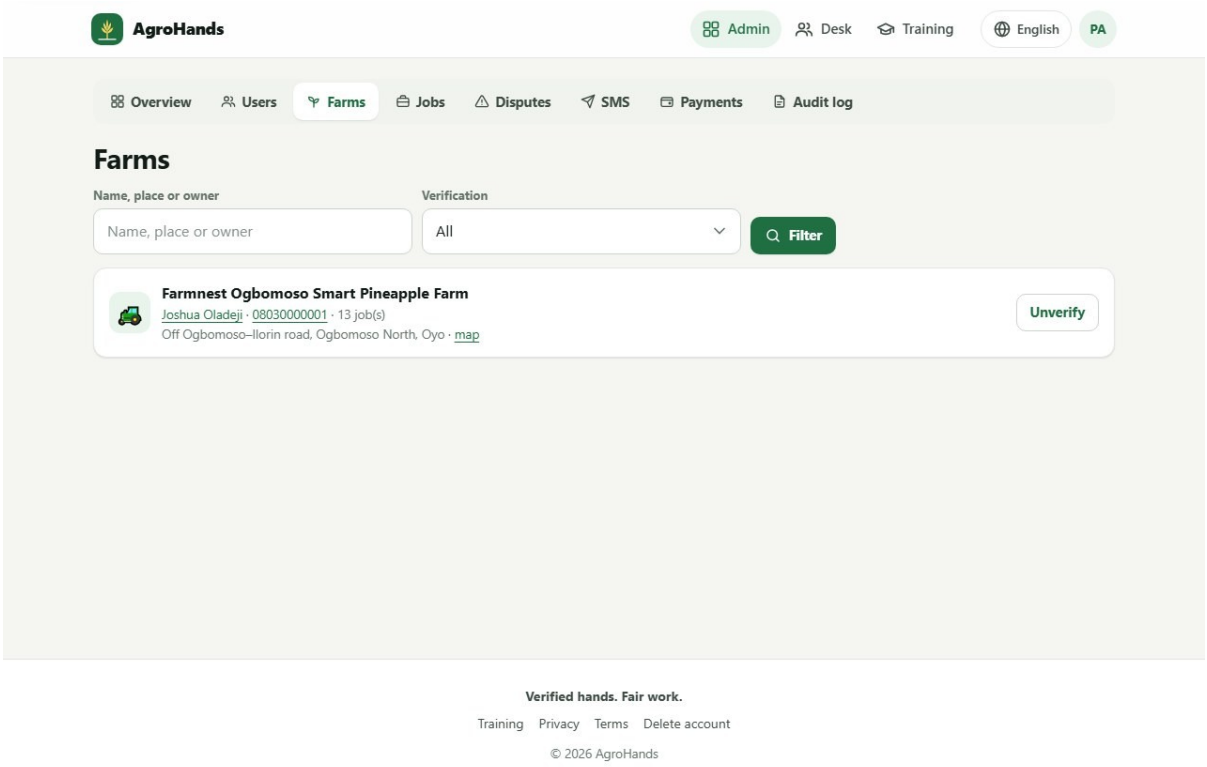

Figure 48. *Farms.*

10.5 Jobs

Lists jobs with farm, skill, number needed, wage, start date and offers outstanding. Filter by status. To remove a misleading or illegal job tap **Close**: the job stops and any outstanding offers expire.

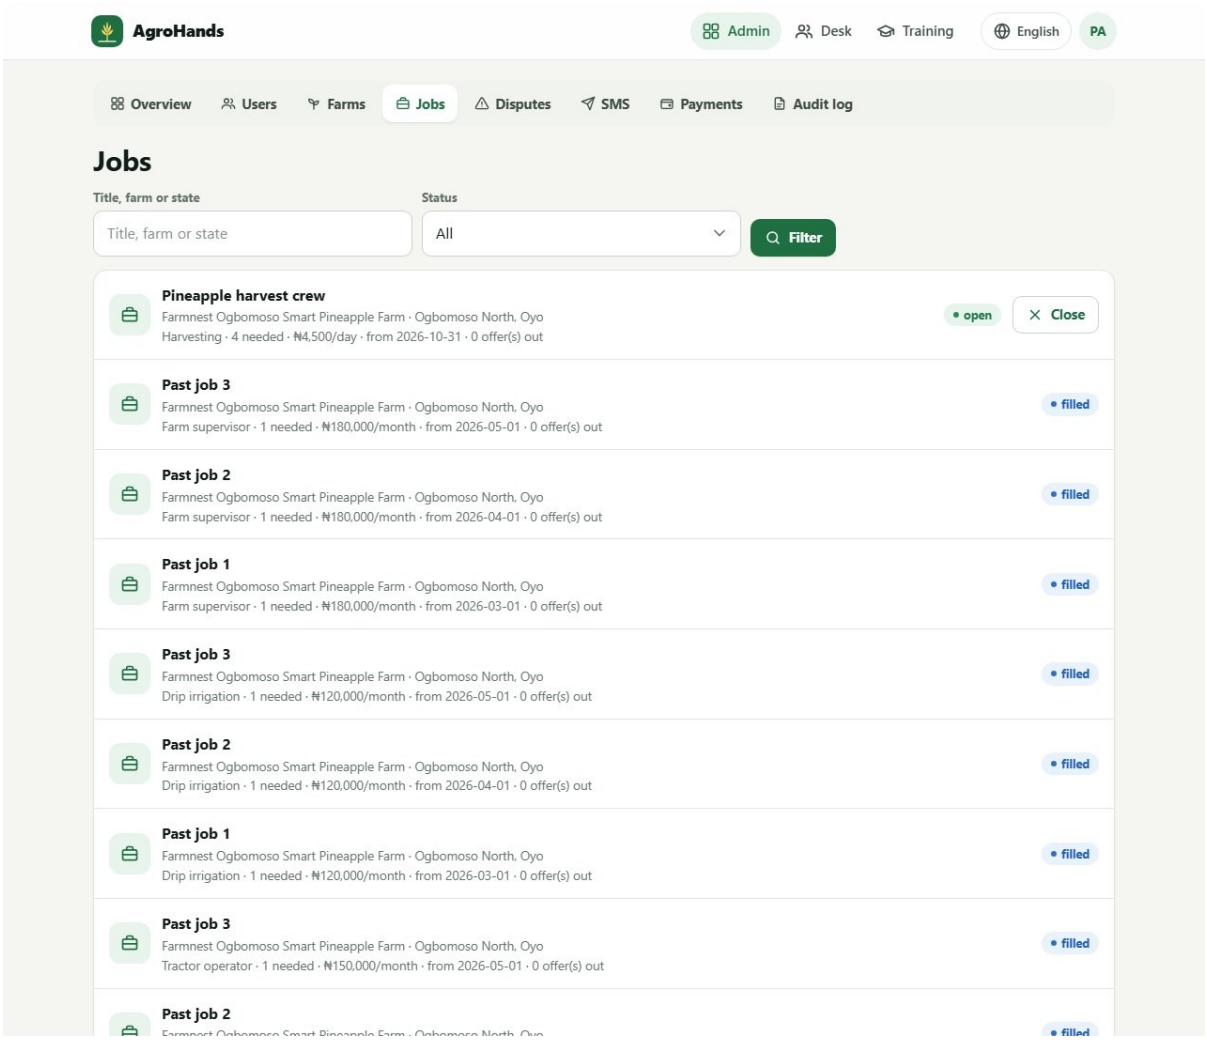

Figure 49. *Jobs, showing all statuses.*

10.6 Disputes

Open disputes show the contract reference, category, who raised it (with a call link) and their description. After speaking to both sides, type the **Resolution**, choose **Resolved** or **Rejected**, and tap **Close dispute**. The person who raised it receives an SMS. Recently closed disputes are listed below.

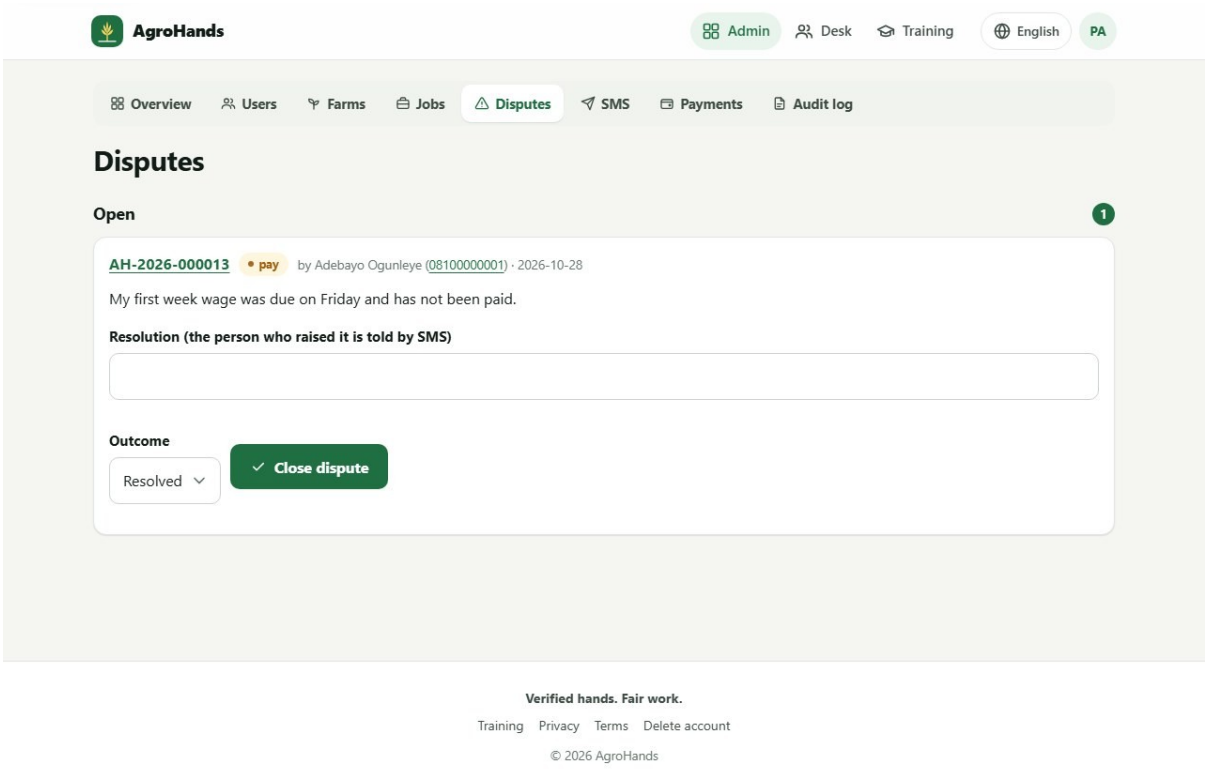

Figure 50. *An open dispute about late wages.*

10.7 SMS delivery

Every SMS AgroHands sends (sign-up codes, job offers, contract alerts) is listed with its status. Failed messages show the reason from the SMS network, for example *DoNotDisturbRejection* when the person has Do-Not-Disturb turned on. Tap **Retry** on a failed alert, or **Retry ... failed alert(s)** for the last 24 hours. Sign-up and PIN codes are never retried from here; they expire in 10 minutes and the person can request a new one. The text of codes is removed once sent.

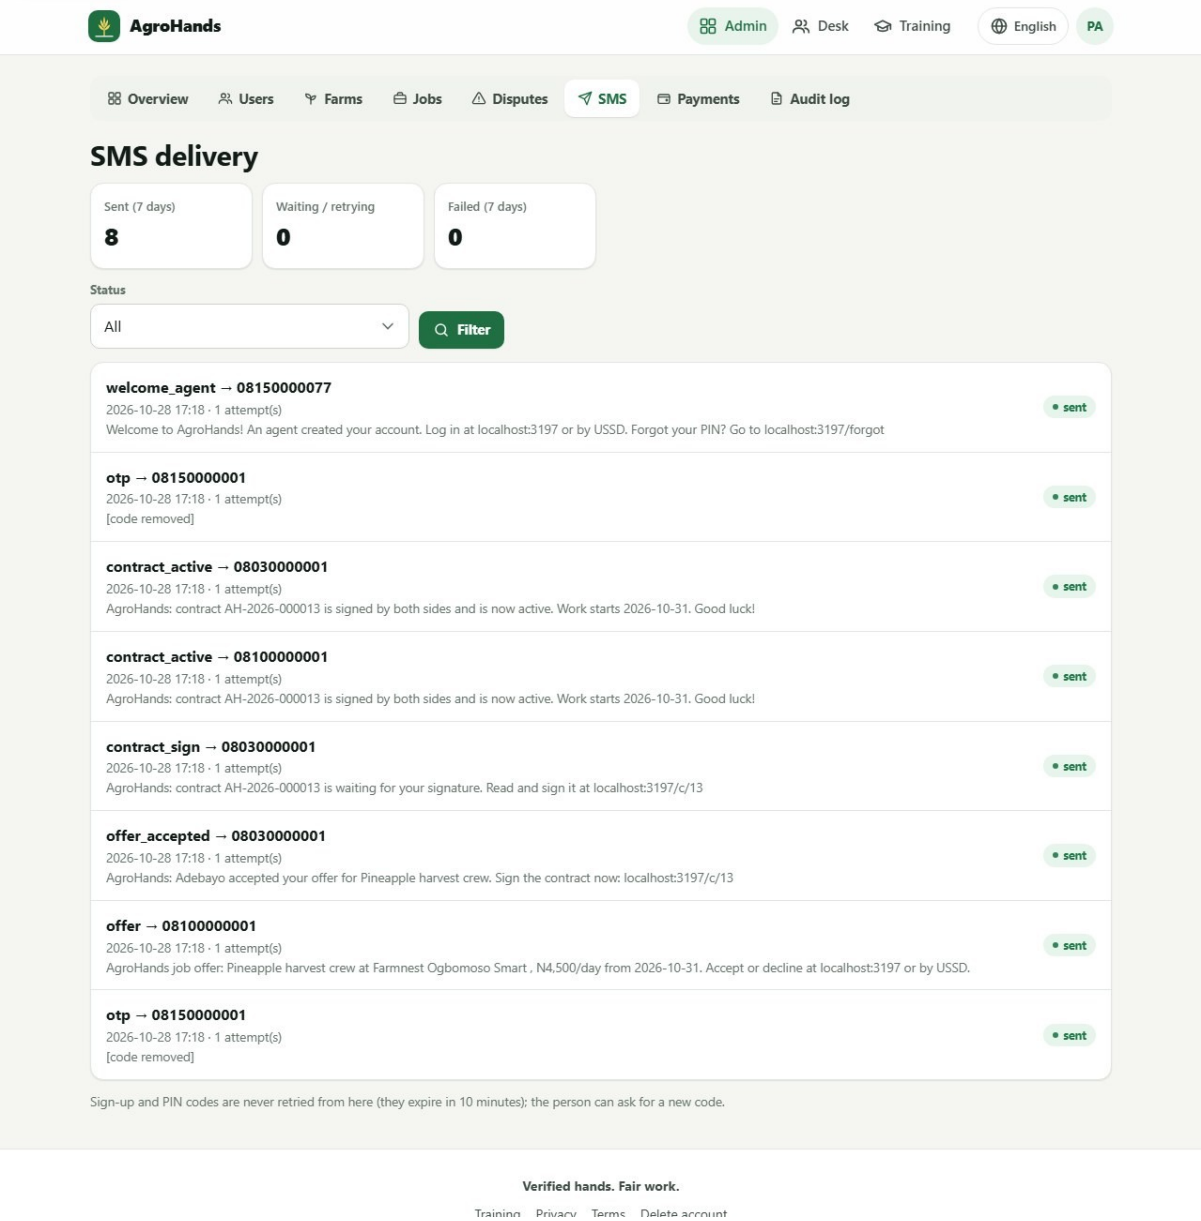

Figure 51. *SMS delivery: totals for the last 7 days and every message with its status.*

> **Daily SMS limit**
>
> To protect AgroHands from fraud that runs up the SMS bill, there is a daily limit on SMS (1,000 by default). Overview warns at 80%. If the limit is reached, no SMS are sent, sign-up shows a message, and the technical team is alerted. Ask them to raise the limit if the growth is genuine.

10.8 Payments

Every payment attempt with amount, purpose, the person, time, Paystack reference and method (card, bank transfer, USSD). Only payments that Paystack confirmed, for the right amount, show as **success**. Pending payments older than an hour appear under Needs attention.

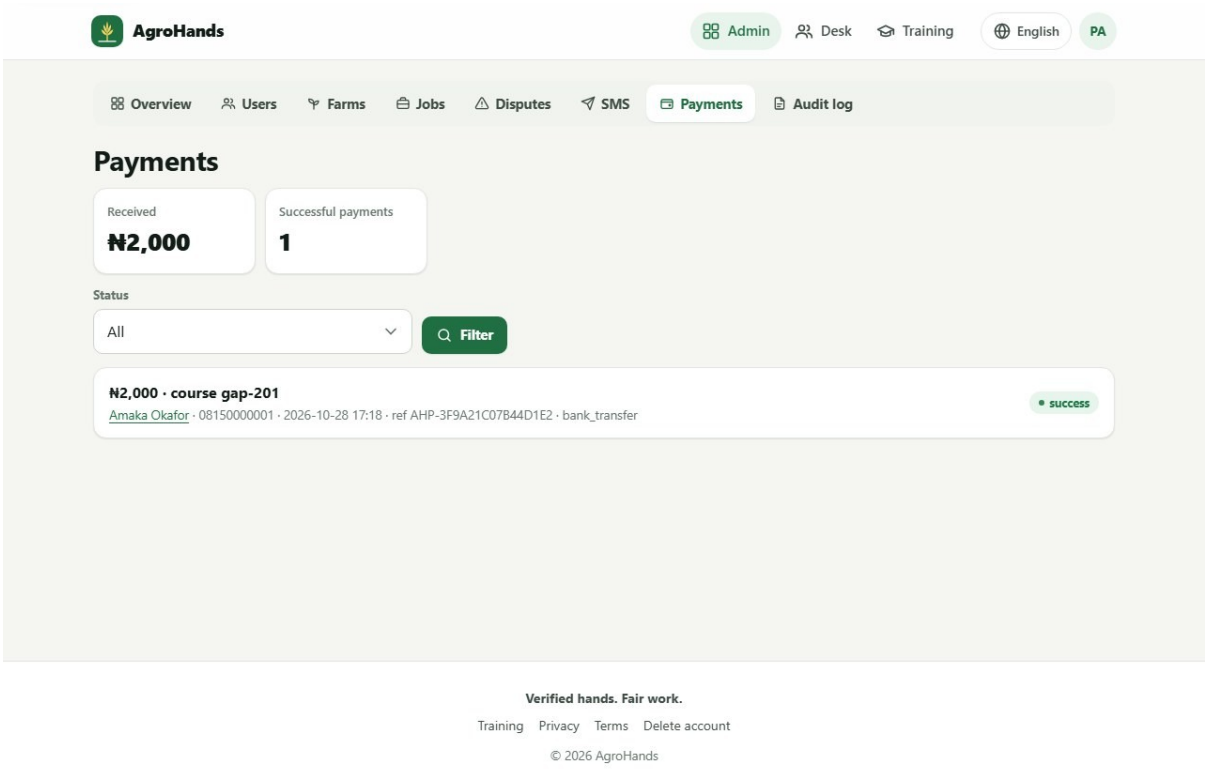

Figure 52. *Payments.*

10.9 Audit log

Every important action is recorded: logins, sign-ups, PIN changes, offers, signatures, agent checks, admin changes, exports and payments. Filter by **Action** (for example `admin.` for all admin actions, or `agent.` for agent checks) or by **Subject** (for example `user:12`). Click a person's name to open their page.

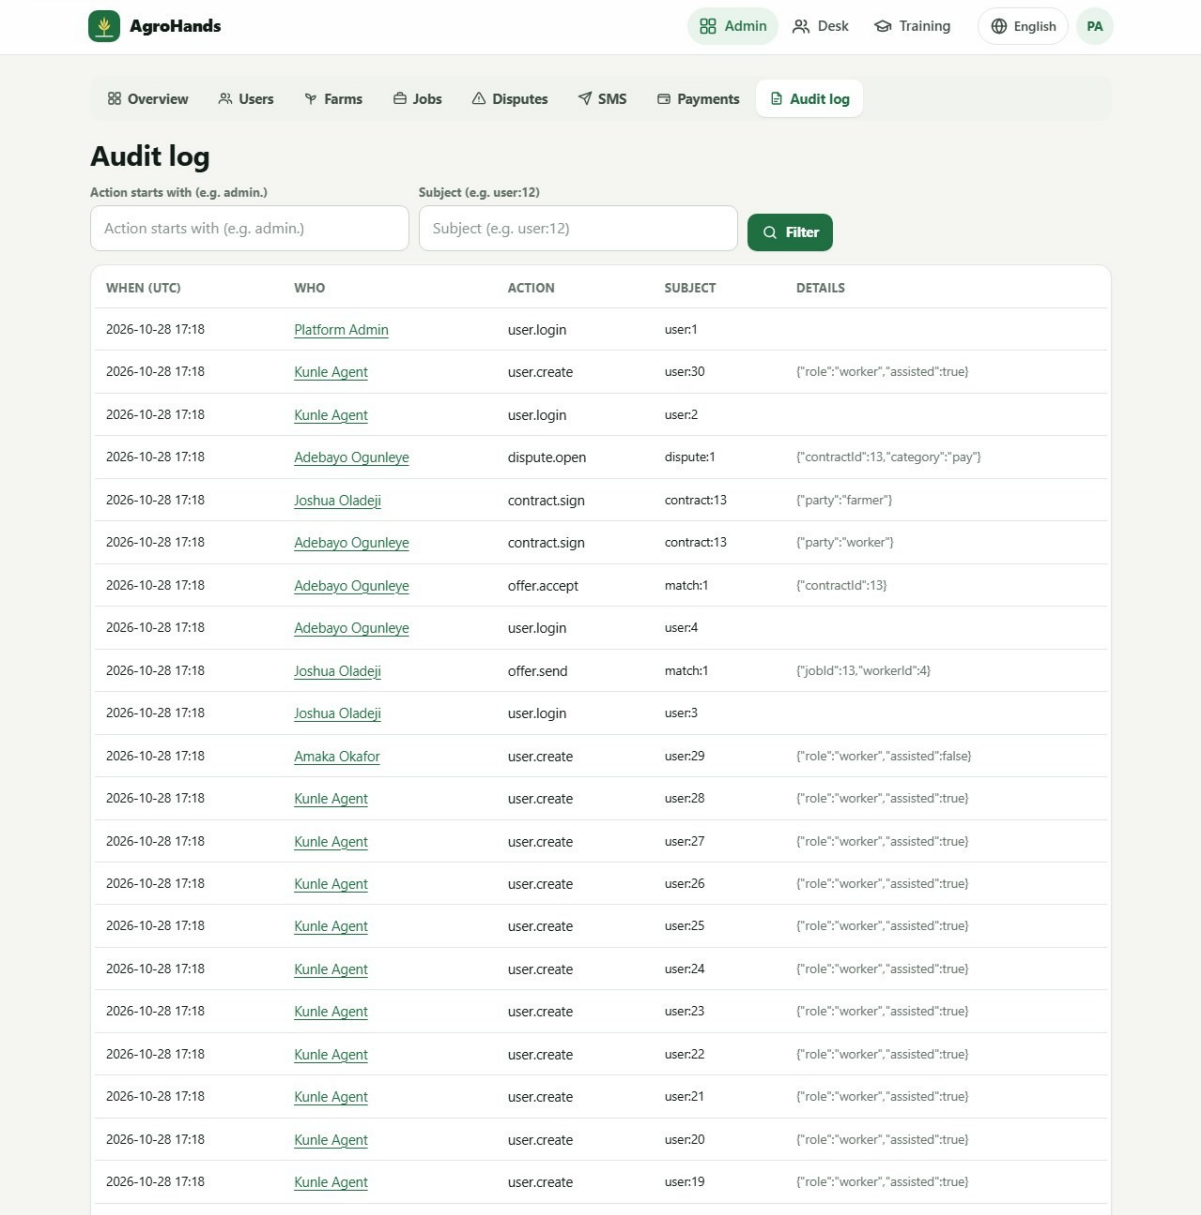

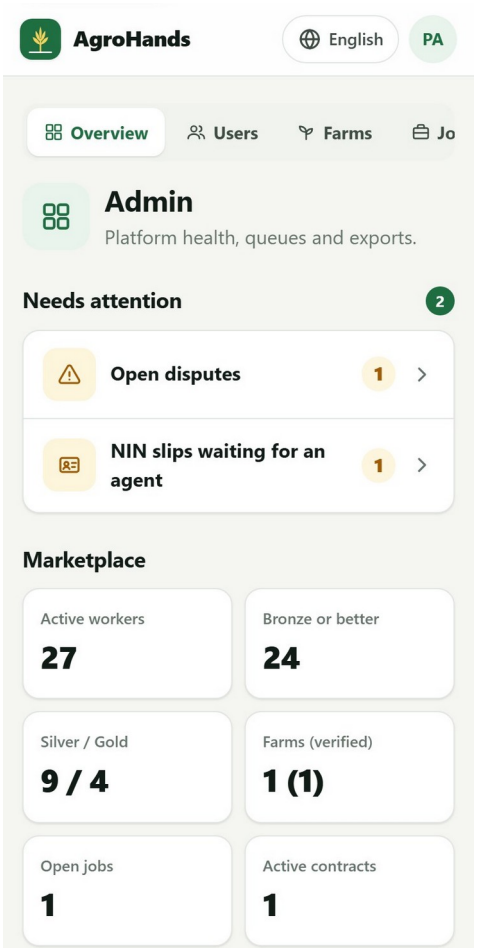

Figure 53. *The audit log.*

10.10 Exports

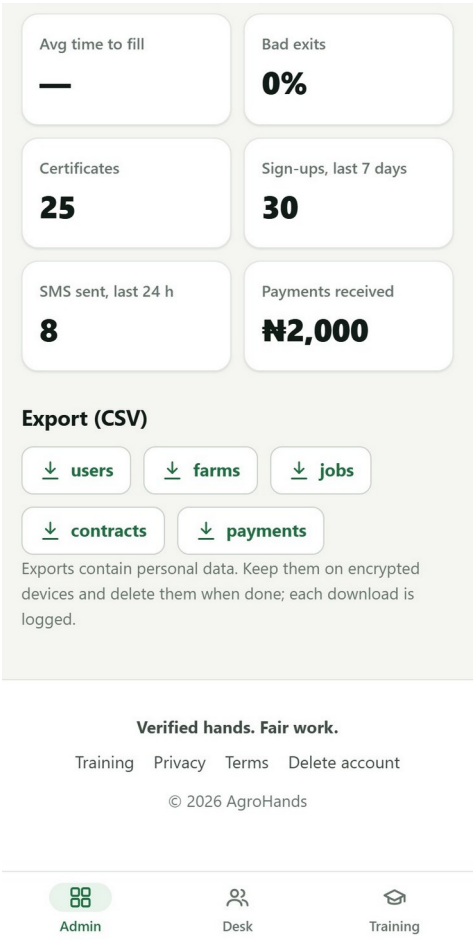

On the Overview, the **Export (CSV)** buttons download users, farms, jobs, contracts or payments as a spreadsheet file that opens in Excel or Google Sheets. Exports contain personal data: keep them on encrypted devices, share them only with people who need them, and delete them when done. Each download is recorded in the audit log.

10.11 Using the console on a phone

The console also works on a phone. The section tabs scroll sideways.

Part 1 of 2

Part 2 of 2

Figure 54. *The admin overview on a phone (shown in two parts).*

Appendix A. SMS messages you may receive

AgroHands sends these messages in your own language. Each fits in one standard SMS. Messages always come from AgroHands and never ask for your PIN or code.

When	Who receives it	Message (English version)
You sign up	You	AgroHands code: 123456. Valid for 10 minutes. Never share this code. AgroHands staff will never ask for it.
You reset your PIN	You	AgroHands PIN reset code: 123456. Valid for 10 minutes. If you did not ask for this, ignore this SMS.
A farm sends you an offer	Worker	AgroHands job offer: [job] at [farm], N[wage]/day from [date]. Accept or decline at [website] or by USSD.
A worker accepts	Farm owner	AgroHands: [worker] accepted your offer for [job]. Sign the contract now: [link]
A worker declines	Farm owner	AgroHands: [worker] declined your offer for [job]. Open [website] to offer it to another worker.
The other side has signed	The one who has not signed	AgroHands: contract [ref] is waiting for your signature. Read and sign it at [link]
Both have signed	Both	AgroHands: contract [ref] is signed by both sides and is now active. Work starts [date]. Good luck!
Your complaint is answered	Who raised it	AgroHands: your complaint on contract [ref] has been answered. Log in at [website] to see the result.
An agent registers you	Worker	Welcome to AgroHands! An agent created your account. Log in at [website] or by USSD. Forgot your PIN? Go to [website]/forgot

Appendix B. Troubleshooting and questions

Problem or question	What to do
The SMS code does not arrive	Wait 2 minutes and check the number shown. Tap **Send a new code**. If you have Do-Not-Disturb (DND) active on your line, SMS may be blocked: dial your network's DND service to allow AgroHands, or ask an agent.
"Too many codes for this number"	At most 5 codes an hour are sent to one number. Wait an hour and try again.
"We can't send codes right now"	AgroHands has reached its daily SMS limit. Try later, or ask an AgroHands agent.
"Too many wrong PINs"	The account is locked for 15 minutes. Wait, or use **Forgot your PIN?** to choose a new PIN, which also unlocks it.
"This phone number is already registered"	You already have an account. Use **Log in**, or **Forgot your PIN?** if you do not remember the PIN.
I was logged out unexpectedly	This happens after a PIN change or reset, after 30 days, or if an administrator logged you out. Log in again.
I get no job offers (worker)	Complete all five steps, keep **I am available for work** switched on, check your expected wage and travel distance are realistic, and tick housing if you can live on a farm.
My shortlist is empty (farm owner)	Lower the minimum level, raise the wage, offer housing, then tap **Refresh shortlist**.
I cannot see the worker's phone number	Phone numbers appear only after both sides sign the contract.
I signed the wrong contract	Before both have signed, either side can end it with **End this contract**. Afterwards, contact AgroHands.
The page does not load	Check your internet. Training pages you opened before still work offline. Try again in a few minutes.
I want to stop using AgroHands	Delete your account (section 8.4).
Someone asked me to pay for a job	AgroHands never charges workers to find work. Do not pay. Report it to an agent or under the contract.

Appendix C. Glossary

Word	Meaning
Agent (field agent)	AgroHands staff who verify workers and farms in person and help people without smartphones.
Availability	The switch that lets farms send a worker offers.
Certificate	Proof that you passed a course. Anyone can check it using its code.
Contract	The written agreement between a farm owner and a worker, signed by both with their PINs.
Dispute	A problem reported on a contract, handled by AgroHands.
Guarantor	A respected person who vouches for a worker.
LGA	Local Government Area.
Match score	A number out of 100 showing how well a worker suits a job.
NIN	National Identification Number (11 digits), issued by NIMC.
PIN	Your 4 to 6 digit secret number: your password and your signature.
PPE	Personal protective equipment: boots, gloves, mask, goggles and similar.
Reliability	How often a worker completes jobs rather than leaving early or not showing up.
Shortlist	The ranked list of suitable workers for a job.
Level (tier)	Registered, Bronze, Silver or Gold. Shows how far a worker is verified and proven.
USSD	The menu service you dial on any phone, for example *384*XXXX#. No internet needed.
Verified farm	A farm whose location and existence an AgroHands agent has confirmed.

Appendix D. Demonstration accounts for training

Trainers can practise with a demonstration copy of AgroHands that contains made-up people and farms (the same data shown in the pictures in this guide). These accounts exist **only in the demonstration copy**, never on the live service.

Role	Phone number	PIN
Administrator	08000000001	1234
Field agent	08000000002	1234
Farm owner (Farmnest Ogbomoso Smart Pineapple Farm)	08030000001	1234
Workers (25 people)	08100000001 to 08100000025	1234

> **Live service**
> On the live AgroHands service every person has their own account and PIN. Never share a PIN, even for training.
